

TEXTRA! Read All About it! Never give another presentation!

Synopsis

In this fast-paced session, participants will learn a dynamic and fun method to enable a group of people to rapidly become engaged with any topic that is important for the success of the particular facilitation exercise. TEXTRA! is a well-tested methodology to use when it is important that all participants are aligned on a body of “Subject Matter” to be able to continue with their work.

The big advantage of TEXTRA! is that it ensures participants are keenly engaged in the topic and will be well aligned on the key distinctions related to the topic or theme participants are working on.. The workshop will be a live demonstration in which participants will learn the TEXTRA! facilitation process by actually doing it.
