Quaker Parrot Craft

Supplies Needed:

Crayons or colored paper

Scissors

Glue

Googly eyes

Your hands and feet

Instructions:

Trace your foot on colored paper or white paper that you can color. This is going to be the body of your Quaker Parrot.

Trace your hand three times on colored paper or white paper that you can color. These will be the wings and feathers.

Cut out your foot, hands and a small triangle shape for the beak.

The heel of your foot will be the head. Glue the beak to one side of the heel and glue a googly eye next to it. You can also draw an eye.

Glue the 3 hands in the middle of the foot so the fingers are pointing out.

Now you have your Quaker Parrot!
