

Testimonial by J.O. 9 2016

“You are so kind. THANK YOU SO MUCH FOR EVERYTHING!!!”

“I suffered from Chlamydia for many years. 6 years to be exact. I was always given these so call ‘antibiotics’ that would work within a few days of taking.....These "antibiotics" did nothing for me. It would mask the pain and I would feel ‘ok’ for a few days. But to no avail I would always relapse. It was horrible. I was always in pain and felt uncomfortable when I would use the bathroom. There would be times I couldn't get out of bed because the pain was so bad. I was scared. I knew I had to do something. I couldn't continue living in pain everyday for the rest of my life. So I did research....I looked for a doctor to perform this procedure on me and that's when I found Dr.Karen Levy. I talked to her about my symptoms and came to an agreement that this could help me. I was injected and within a few days. I was 10 times better. No pain. No pills. No follow-ups. Just cured. It was amazing and it's natural. That's what I love. I was treated in late December or early January 2016. It is now September 2016 and I'm still cured. I highly recommend this procedure to anyone who is searching for that last bit of hope. Being sick all the time messes with you emotionally and physically. Trust me when I say ‘This really works.’ I hope I can help someone out there with what I've gone through with my experience. Dr.Rowan and Dr.Levy are doctors who go above and beyond to achieve the results you need and to help you get your life back and be pain free”.
