REP. RIBBLE CONTINUES TO FIGHT FOR OUR VETERANS' WELLBEING

Veterans Champion Congressman Reid Ribble (WI-08) Continues His Support of Vets By Affirming Veteran's Bill of Rights; Efforts Recognized by National Veterans' Group

FOR IMMEDIATE RELEASE

Contact Benjamin Peoples 703-237-8980

Falls Church, VA – Today, Congressman Reid Ribble (WI-08) announced his support for the Veterans' Bill of Rights. The nationwide Circle of Friends for American Veterans (COFAV) recognizes and commends him on his continued work to help our country's veterans.

Ribble has affirmed the following through the Veterans' Bill of Rights:

- 1) Veterans are a top priority.
- 2) Wait times on VA disability claims must be reduced from the current 202 day average to a maximum 125 days.
- 3) The VA should negotiate to save money on its procurement services.
- 4) The VA should collect all possible insurance claims owed to it.

The challenges facing our country's nearly 22 million veterans are many. There are almost 100,000 homeless veterans, nearly 700,000 cases of PTSD & TBI, and 22 veteran suicides each day. According to the Journal of the American Medical Association, half of all veterans returning from a war zone suffer from chronic pain.

Congressman Reid Ribble believes that America has a moral obligation to care for those who have served our nation by providing them with the best medical care and aid in re-entering the civilian workforce. During his time in Congress, Congressman Ribble has voted for and sponsored legislation that fulfills this obligation, and continues that commitment through his support for the Veterans' Bill of Rights.
