### Career Coaching Sessions

Some clients choose to meet weekly, and I have others who rarely use the sessions. These sessions are for practicing interviewing, reviewing job offers, asking questions regarding the hiring process, etc. These are by appointment.

### Emergency Laser-Focused Sessions

I am here to help you reach your career goals. I understand that sometimes an emergency arises between your scheduled coaching sessions, and you may need to speak with me. I will do my very best to answer your call. If I cannot answer the phone immediately, I will return your call as soon as possible.

### Texting & Calling

I encourage clients to send a text if they have a question that can be quickly answered via text. You may text me Monday through Thursday between 7am EST and 7pm EST.

### I Job Hunt, and I Apply for Jobs on Your Behalf

Job hunting is completed a minimum of twice a week by me. Some weeks I will be able to find numerous openings, and other weeks I may find nothing. I cannot control job postings. I will never spam your resume to employers, and I will only apply for job postings you are immensely or highly qualified. On average, you can expect to have your civilian resume submitted to three to five weekly jobs. Federal resumes require more work; therefore, you can expect to have one to three resumes submitted in a given week.

### (1) Update to Your Resumes & (1) Update to Your LinkedIn Profile & Other Accounts
