Help our Central Arizona Chapter Stay in AWIS

Membership in AWIS

As many of you know, ASU is partners with the AWIS National organization. This partnership allows students to become **collegiate members** for free [must sign up online at awis.org/asu and have a current ASU email address]. To date we have over 700 student and general affiliates but only a fraction who are members.

Although the Collegiate Membership is a great opportunity for our undergraduate and graduate students we encourage our other affiliates, or even students who want an expanded membership, to **sign up as an official member of AWIS** with Central Arizona as your selected chapter. We are urging your participation because the National organization requires that we maintain a minimum number of members to stay listed as an active chapter. Please consider becoming an official member today!

Interested in Judging Science Fair?

Science Fair Judging Opportunities

In the Spring of 2016 both the Arizona Science and Engineering Fair [AzSEF] and Intel Science Fair [ISEF] will be hosted in Phoenix. We are collecting names of

anyone interested in judging the AzSEF at the Arizona Science Center which is scheduled for April 6-9th. We can also provide you with more information if you are interested in judging at ISEF.

**Contact Us for Volunteer
Information**

ISEF May 8-13, 2016 Phoenix Convention Center
