

THE COVENANT MARRIAGE WITH ISRAEL

It is estimated that from the going out of Egypt by the Hebrews into Sinai and reaching the crossing point is roughly 231 miles. This would have taken a single average man about 7 days or 1 week to fulfill. The distance would have amounted to 33 miles per day. However given the fact that there could have been about 3 million people with possessions and livestock to herd, it could have take twice as long. If this mountain complex is the real Mt. Sinai, then one will find a geometry that will speak of its divine layout, even in terms of its topography. As the Altar of Moses is serving as some sort of a focal point, astonishingly then the Cave of Elijah is directly in perfect phi ratio from the Altar of Moses. What is undeniable is that there is an actual cave at that precise location in perfect mathematical relationship as if the mountain was functioning as a geometric pyramid.

The Tabernacle of Moses was made at Mt. Sinai according to the divine blueprint given to Moses by YHVH on the Mountain. All the furnishings and specifically the Ark of the Covenant was fashioned as a facsimile of the original in Haven. It served as a 'Throne Chair' from where YHVH could have His Presence residing and from where He would rule directly the nation of Israel as the Sovereign King. Many believe that in the Last Days, specific to Daniel's last Week of Years, the 70th, the Ark of the Covenant will be unveiled and presented for the 3rd Temple.

The time the congregation met at the foot of Mt. Sinai occurred on a Moed of 7x7 plus 1 day. This time was to later become Pentecost. The appointed time became a 'marriage' covenant between YHVH and the nation of Israel. The giving of the Law was as a marriage vow. This foreshadows the giving of the Holy Spirit as a 'down payment', deposit or 'wedding ring' for the Bride of Christ for the Disciples of Jesus on Pentecost of the 1st century, 50 days after the death, burial and resurrection of Jesus.
