

STAR OF DAVID

THE COSMIC COUNTDOWN

Symmetry and Patterns from 1990-2013

by Luis B. Vega

www.PostScripts.org

The purpose of this study is to highlight a key celestial occurrence in the Heavens called the Star of David planetary alignments. The focus of the timeline presented will be from the most recent occurrences in our modern time. Starting from 1990 to 2013, these peculiar planetary alignments seem to be clustered. In particular, since 1990, 13 Star of David configurations occurred and led up to the Tetrad of 2014-15. The 13th occurrence was the 'last one' leading up to the Tetrad of 2014-15. The date range from July 22 - August 26, 2013 saw the 13th alignment as a 'twin' occurrence with 2nd alignment happening on August 25/26. The time difference from the first 'twin' Star to occur in 1996 to the 'twin' Star of 2013 was 17 years. What is somewhat similar is that the twin Star of 1996 to the Tetrad of 2003 was 7 years.

After 2013, there will not be another such configuration or a Star of David alignment associated with a Tetrad for another 100 years or so. The Star of David alignments appears to follow a 'countdown' sequence or frequency. It very much appears to be like the total solar eclipses that occurred consecutively on the 1st of Av in 2008, 2009 and 2010. Those 3 consecutive eclipses appeared to signal the 'countdown' to the start of the 7-year solar-lunar pattern. It appears that this same principle or 'astronomical law' is at work here with the Star of David alignment pattern and symmetry. The pattern likewise suggests a sort of a 'cosmic countdown' perhaps is highlighting the Tetrad of 2014-15. As to who or what event the countdown is specifically referring to, that will remain to be seen. Based on the work of Charles Webb, such 'Cosmic Hexagrams' had to do with the birth of Jesus Christ, of royalty and thus a factor.

Perhaps these Star of David 'signs' in the Heavens could be a countdown to a birth of a 'King'. Such a pattern could be signaling the coming end of the Church Age even with the Rapture. It could be the coming New World Order, the rise of the AntiChrist, World War 3 or a combination of all the above and more. For the purposes of this study, only a better understanding of the Star of David's numerology and patterns will be presented and considered. Students of Biblical prophecy can tell though, that Scripture is very clear as to what is coming specifically in the Last Days; the Rapture, sudden destruction, chaos, the AntiChrist, war, disease, death, the return of Jesus Christ, etc. Perhaps all these events are already 'written' in the stars through such clues to be found in the solar-lunar eclipses patterns, the comets and Star of David planetary alignments; many would agree, as others would not. Perhaps but for context, the following items will also be illustrated. The pattern of all total lunar eclipses since 1989 to 2013 will be plotted onto the Star of David timeline.

'Star Wars'

It appears that various total lunar eclipses provided or Blood Moons some spectacular symmetry as well corresponding to the Star of David configurations and frequency leading up to the Tetrad of 2014-15. The Tetrad of 2014-15 did corresponded to certain Jewish Feasts. According to research, this particular Tetrad was the 8th since Jesus Christ or 7th depending on the start date. What is peculiar about these Tetrads had all the 4 consecutive total lunar eclipses corresponding to the Jewish Feast days of either Passover or Sukkot-to the very day. A detailed construction of the 13th Star of David planetary alignment will be illustrated in the chart accompanying this study. The corresponding heavenly bodies at each coordinate and sign of the Zodiac will be noted on an astrological chart as well.

For context, the Astrological, Sidereal and Tropical Zodiacs will be illustrated along with the 4 cosmic Star Cardinal Points. The 4 Cardinal Stars are in the constellations of Scorpio, Leo, Taurus and Aquarius. These constellation Signs also correspond to the 4 Living Creatures that surround the Throne of YHVH in Heaven, as described in the Bible. From Biblical text, they are known and recognized as the Man, the Eagle, the Bull and the Lion. The corresponding Star for each Sign is Fomalhaut, Antares, Aldebaran and Regulus. When a Star of David alignment occurs, it is not actually configured that way in the Heavens as the actual Star of David symbol because of how one sees the alignment from the vantage point in the sky from Earth. How it translates from our vantage point is a 'T' or cross configuration of the planets.

What is interesting to note about this Star of David pattern is that 3 of the Star of David planetary alignments since 1990 are considered to be what many call 'War Stars.' This term is ascribed to them because major regional wars quickly broke out shortly after their appearances in the Heavens. In the decade of 2000-2009, one had 'War Stars' occur in 2001, 2002 and 2007. The last one, being the 13th Star of David is predicted to be a 'War Star'. What this may mean is that if this Star of David pattern is valid from prior correlations to war, then perhaps the decade will see the current major regional world conflict escalate to a major military confrontation. This could very well mean that it will involve a multi-national coalition of nations, as no doubt the epicenter will be the Middle East with the unresolved Muslim-Jewish conflict.

To reiterate, this Star of David symbol is only construed when plotting the coordinates of the corresponding planetary alignments onto an Astrological Chart. The actual Star of David symbol cannot be configured in the sky as the planetary coordinates are on a flat piece of 1-dimensional paper. However, there are cosmic coordinates that exist that do configure an actual Star of David symbol in the Cosmos. Most astronomers, as well as astrologers do recognize this to be true. There are 6 cardinal points or Stars in the Zodiac or Mazzaroth that approximates an actual Star of David symbol in the Heavens. These stars are in Aquila and in Cetus, Arcturus, Regulus, Sirius, and Eridanus. The listed events surrounding the celestial configuration of the Stars of David are only noted as they occurred within 2-3 years before and after the alignments-in primarily in the USA and the world at large. The main reason why the USA is interjected more so than any other nation is that presently, the current Luciferian 'Order' is within the USA.

Star of David Configuration Dates

Currently the 'World Order' is the USA as the 'Phoenix' that is soon to be taken down. It is planned to be consumed by itself as a 'Ouroboros' so it can give rise out of the blood and ashes the birthing of the New World Order 'Phoenix'. In some cases and are only 'suggestive' and encompass the years prior and after the celestial configuration as possible links to such alignments for your consideration. The Star of David alignments appears to have definite numerical patterns with corresponding symmetry to other Star of David alignments and with total lunar eclipse patterns.

1st Alignment: 1990 (1989-1991 time period)

2nd Alignment: 1992 (1992-1993 time period)

3rd Alignment: 1995 (1994-1995 time period)

4th Alignment: 1996

5th Alignment: 1996 - Twin Star (1996-1997 time period)

6th Alignment: 1998 (1998-1999 time period)

7th Alignment: 2001 (1999-2002 time period)

8th Alignment: 2002 (2001-2003 time period)

9th Alignment: 2007- Jun (2007-2008 time period)

10th Alignment: 2007-Sep

11th Alignment: 2011 - Aug

12th Alignment: 2011 - Nov

13th Alignment: 2013 (2012-2015) time period

5776 *year in Jewish calendar and the Luciferian 'Year of Light'*

The Star of David cluster started in August 1990 to September 2001. It had an identical and symmetrical proportion of time. The midpoint has an incredible 'twin' or 2 consecutive Star of David configurations, the 4th and 5th ones occurred in September and October of 1996. These 2 or twin Star of David alignments seem to have served as sort of a 'fulcrum' within the timeline presented. From observation, the 13th Star of David planetary alignments appeared to be a clear countdown to the Tetrad of 2014-15. If this is the case, for one, it made the Tetrad of 2014-15 a phenomenon like no other Tetrad occurrence. In Biblical prophetic perspectives, the time or season in which the Tetrad occurred witnessed within about 2-3 years, the 70th year anniversary of the birth of Israel and the 50th year anniversary of the recapture of the Temple Mount of Jerusalem by the Jewish nation.

The Pattern and Frequency

Continuing in the timeline, after the twin Star of David fulcrum time-marker there is a spectacular sequence in increasing frequency. There are 3 pairs of Stars of David, the 7th and 8th, 9th and 10th, 11th and 12th that begin the 'countdown' with increasing frequency. The Stars of David get closer to each other specifically starting with the 9th and 10th configurations. The 2nd half of the Star of David pattern seems to have had a pattern of its own. This frequency sequence led-up to the singular 13th and 'last' Star of David configuration before the Tetrad of 2014-15. It is like a celestial drum-roll. Could this celestial resonance be corresponding to the frequency like that of a 'labor pain' Jesus Christ warned about would characterize the Last Days before the end of the Church Age or the Christ's return perhaps.

According to a generic description of a woman's labor pains, the contractions become more intense and closer together in terms of frequency leading to the birthing. The Star of David alignments in the Heavens perhaps are just mirroring the pattern of actual 'labor pains' the world, the Earth, the Creation are currently experiencing. If one is current in the real news of the day, one cannot help but acknowledge that the world, Earth and Creation are groaning; groaning for the resurrection and 'Rapture' of the Sons of God many would say as described in Romans 8:22. No doubt, the state of the world is fast approaching a point of critical mass of a 'birthing' to come and deliverance. For those that speculate that the Rapture of the Bride of Christ might possibly be corresponding to what is going on in the 'Signs' in the Sun, Moon and Stars, the pattern of the Star of David from 1990 to 2013 does appear to be plausible 'Signs'.

Whether it might lead to the timing of the Rapture will remain to be seen. Perhaps the profound association with the Tetrad's Jewish Feasts of 2014-2015 meant that Israel will be the focal point in the LORD's timetable after the Rapture. Perhaps the Star of David patterns are indeed signaling a 'birth' to occur of something as prophetic as the Rapture or the rebuilding of the Jewish 3rd Temple or the coming of the AntiChrist Prince. Perhaps there is a 'birthing' in more ways than one to likewise consider. Eschatologically, some Bible researchers do believe that there will be a several 'birthings' that can be ascribed to in the Last Days. There is the 'Christ-image' within Believers of Jesus Christ that is forming much like a gestation period of a pregnancy, as the Apostle Paul describes in Galatians 4:19 metaphorically. Believers are waiting until 'Christ is formed i.e. birthed in you'.

This spiritual process is called the Sanctification of the Believer. This stage in the present time can be viewed in terms of a 'pregnancy' or the cocoon stage of a butterfly, spiritually speaking. Nonetheless, it does involve an intense labor; a labor of love, of joy but mingled with pain and suffering along this journey of faith. A Disciple of Christ strives to have this work of Sanctification by the Holy Spirit completed or in other words, come to full term or gestation. This is worked out in a Disciple's life until the time of death, which will coincide with, wither the Resurrection and/or Rapture. This principle can also be applied in a corporate sense i.e., to the Bride of Christ. Corporately, once the collective 'Bride has made herself ready', the Bride will be presented to Christ. She will be delivered or 'birthed' at the time of the Resurrection and Rapture.

Birth Pangs and a Delivery

If the Rapture is to be seen as a transition or 'birth', perhaps it might very well coincide with the Sudden Destruction that Jesus Christ spoke about would come upon the world as a 'women in labor'. Is this now not being seen in the world? Then there is the 'birthing' of the New Age that the Luciferians, occultists, and anti-Christians are expecting at some point in this very generation. They believe that their 'Mother Earth', Gaia is 'pregnant' and is about to give birth to their new 'Consciousness' or New World Order. Their rationale though has a sinister plot in that the Earth has to cleanse itself before humanity can leap into the next stage of its 'evolutionary' quest to 'Godhood'.

What this translates to is that certain people, mainly professing followers of Christ, need to be taken out of the way, eliminated. Gaia has to shed its skin like a snake; a very fitting depiction of Lucifer's New World Order designed and to be implemented by 'that ole serpent the devil' that he is. To those that ascribe to this New World Order view and rationale, people with such beliefs as Christ Followers are impeding this 'birthing' of their 'Golden Age'. This is actually true Scripturally. The Bible teaches that the Holy Spirit and thus those that are indwelt with the Holy Spirit are acting as agents of restraint to the full onslaught of Satanic evil that is eager and is striving to be unleashed on the world.

This Luciferian onslaught of evil will come to the world, but only once the 'Restrainer' is taken out i.e., at the time of the Rapture of the Bride of Christ per 2 Thessalonians 2. Lastly, there is the vision of the pregnant Woman in Revelation 12 that is in intense labor pains about to 'birth' the Manchild. This vision has multiple levels of meanings; it is referring to the imagery of Jesus Christ, but there are other layers of interpretation. It can also allude to the Church and Israel in particular. Many believe, for example that it will be concerning Israel during the Tribulation Period. The Bible does describe the coming Tribulation Period, where and when Israel will be that 'metaphor' that will be pregnant with intense labor pains.

It will be the Time of Jacob's Trouble or travail as in 'labor', a birthing, and a deliverance. What all these Stars of David planetary alignments could possibly mean is that the Rapture of the Bride of Christ could very well take place sometime around a total blood lunar eclipses as the Church Age seems to be coming to an end. Perhaps the time remaining up to that point will be some concrete 'season' or window for the Rapture to actually take place in such a generation. This Rapture window or 'zone' may be more of a plausible time frame for the Rapture of the Bride of Christ to occur than at any other time since Pentecost of Acts 2. Why?

This is assuming that the Tetrad of 2014-15 is signaling that YHVH will soon focus back His prophetic attention on national Israel. It would appear that such celestial alignments seem to be converging and could very well signal the start of the Tribulation period as foretold in Daniel 9. Prophetically speaking, this Rapture window could also encompass the time that might be in tandem with the coming world war in the Middle East and the subsequent setting-up of the Luciferian New World Order. The following are some calculations of the Stars of David occurrences.

The Motifs of the Star

To reiterate, the Star of David alignment that occurred in 2013 was the 13th since 1990 near the 13th Sign of the Zodiac, Ophiuchus. This Sign was introduced on the 13th of January 2011. (13-13-13-13). The geometry of the Star of David is simply a geometric configuration having 2 interlocking triangles that have 6 equidistant points within a 360-degree circle. One triangle is facing up and the other facing down in a 2-dimensional aspect ratio. When the Star of David is transposed into a 3-dimensional plane, you get a pyramid, which is called a tetrahedron. The fusion of 2 tetrahedrons together is called a Star Tetrahedron. This unique geometric configuration would perfectly fit into a box or square that forms a smaller square at its core; a square within a square. There are other elements that incorporate this geometry and symbol, below are just a few to consider.

The flag of the nation of Israel currently has the Star of David or 'Magen David' (מגן דָּוִד). This symbol is famous and very recognizable around the world. It is a symbol that represents Judaism in general. Even though the symbol within Judaism is ascribed to King David, according to the available research, King David was not associated with such a symbol at all. On the other hand, the Hebrew Bible does speak about his son, King Solomon that did have a peculiar 'Star to his god'. This was not ascribed to YHVH but to various Satanic Fallen Angelic deities and their religions based on astrology and star configurations. Such occultic symbols serve to guide people's lives, decision-making, trust and fate.

The Occult also uses the Star of David, but they do not call it that. The symbol is far more ancient than that ascribed to King David or Solomon. To the occult, the hexagram is used as a sinister tool. It is used to induce spells, call up demons and is alleged to help enter into the spirit dimensions beyond our space and time through 'astro-travel' for example. The occult uses this symbol to incorporate its astrology and combine it with Satanic magic rituals for evil purposes. They are in total opposition to the Judeo-Christian Scriptures in an attempt to thwart YHVH's complete Plan of Redemption for mankind, the Justification, Sanctification, and ultimate Glorification of the Bride of Christ.

The Esoterics uses the same symbol as a potent representation of the relationship between the 'macrocosm' and the 'microcosm' within the known universe. It is incorporated in the quest to understand and quantify the Creation, the Universe, between Heaven and Earth, union of opposites, etc. It is the 'As Above, So Below' principle that is seen in the occultic and mystical Jewish Kabala and the Tree of Life cults around the world. It also appears in the Buddhist, Theosophical and other Eastern traditions, As Above, So Below is the mantra of the Luciferians.

The science of the Fibonacci Sequence or the Golden Ratio ϕ is another example of where this symbol is expressed but in pure mathematical terms. It is the fractal that makes up the order of design in all of Creation. This Golden Ratio can be seen in natural designs, growth patterns such as with flowers to hurricanes, in the human DNA, the human body, in art and architecture just to name a few properties. A tetrahedron or a 3D pyramid is the only convex perfect polyhedron of the 5 Platonic Solids known to exist in the Universe, etc.

These 5 Platonic Solids comprise the building blocks or the foundation of everything in our known physical world. A tetrahedron composes 4 triangular faces, 3 of which meet at each vertex that is at the 'top' or apex of a pyramid for example when placed on a flat surface. It has 6 edges altogether. For example, the most common geometric shape of the tetrahedron arrangement is water as people drink tetrahedrons every day. This is H₂O or 2 hydrogen and 1 oxygen molecules, etc. An example of this tetrahedron principle can be seen in the Metatron's Cube. This geometric form is used as the standard of measurement for other esoteric 'Sacred Geometric' forms such as the Seed of Life, the Flower of Life, and the Tree of Life. It is even said to be able to be mapped onto the human body as in the organs, etc.

The Hebrew Alphabet is also based on the Star of David geometric layout. Each of the 22 letters of the Hebrew alphabet forms the Star of David configuration when combined together or assembled within the layout of the symbol. The tetrahedron has an association with the book of Revelation in chapter 14. This chapter deals with the sealing of the 144,000 number during the Tribulation Period. Geometrically, this number is associated to a tetrahedron summation in numbers. To reiterate, the tetrahedron has 4 faces or surfaces. If you intertwine 2 tetrahedron or pyramids, they form a 'Star Tetrahedron'. This form will thus produce 36 points altogether. Thus, when one multiplies the 36 points x the 4 surfaces, the resulting coefficient will be 144.

In the book of Revelation chapter 21, there is seen coming down of the 'City of God', the New Jerusalem. It is the very Throne Room of YHVH that literally will super-transpose itself onto the Earth. It will have its foundation centered from where Jerusalem is now in Israel. Is it no wonder why Jerusalem as always been the most contested piece of land ever. It will be a time where literally it will be 'Heaven on Earth'. This is said to occur after the Great White Throne Judgment where the Bible declares that Christ Jesus will make 'all things new' to include a New Heaven and New Earth.

At that time, dimensions will mesh to create a new reality for Eternity Future. Perhaps this New Jerusalem will actually be a Star Tetrahedron; a 'Star of David' in 3 or 4-deminsinal aspects. Based on the given measurements that are described in Ezekiel, many speculate that the New Jerusalem will be a cube or a pyramid in shape. Both geometric configurations are valid as both measurements concur, from a 3-dimensional point of view. What if it is actually both one in the same, a Star Tetrahedron? Basically, it would be 2 intertwined 3-deminsinal pyramids within a square.

This geometric configuration incorporates both the cube and the pyramid into the 4th and perhaps other dimensions YHH has in store for His Redeemed in the New Jerusalem. Also, realize that a Star Tetrahedron would incorporate a 'square within a square'. This would allow for the very Holy of Holies, which is a perfect square, to be with the confines of the cubed city that incorporates 2 tetrahedrons. When visions of the Throne Room of YHVH are depicted in the Bible, it is always a perfect cube, as with the Tabernacle of Moses, the Temples, The New Jerusalem, etc. As the New Jerusalem will incorporate some of the same elements and principles of the movable Throne of God as described in Ezekiel; having 'wheels within a wheel', etc.

The Cosmic Geometric Key

It may not be beyond the realm of the imagination that the New Jerusalem will be also some sort of a Merkavah. As the Bible does describe that it will come down from Heaven, it could very well be the case that such dimensions will overlap, in essence Heaven will literally be superimposed onto the Earth as one 'fabric'. This 'chariot of GOD' as described in the Bible seems to be a vehicle that transfer or transport the Creator, etc. Perhaps the New Jerusalem will have this Merkavah like properties to portal itself but without space and time dimension. Is this far-fetched? The Star of David 'Sacred Geometry' alludes to this possibility. In January of 2010, a celestial anomaly was discovered in the Heavens and its image was captured by the Hubble Telescope. Scientists could not decipher if it was either an asteroid or a comet or remnants of either.

They nonetheless labeled this object P/2010 A2. What was and is very peculiar about this object is its geometric shape. The object has a very long streak or tail like a comet, but it has neither a coma nor a nucleus that a comet would have. It has no apparent asteroid composition or center mass that is defined. Instead, this object has a pronounced Star of David geometric design. Could this be a 'celestial chariot' or Star tetrahedron 'Merkavah' streaking across the Heavens? On the other hand, could it be just subjected to the frequencies of the speed based on its size and matter composition to reflect this design due to its vibration and resonance? To reiterate, the 13th Star of David planetary alignment occurred in 2013 near the 13th Sign of the Zodiac that was incorporated/added on Jan 13 of 2011, a 13-13-13-13 numerical sequence.

Many believe that the geometry of the Star of David at certain celestial dimensional levels can be used as a trans-dimensional 'Key' to open 'gates' or celestial portals, doors to the spirit realm; even to Heaven itself. Perhaps the 13th Star of David 'key' that started in mid-July of 2013 was a type of 'Door' or Stargate that it to be opened to this present dimension using the Star of David alignment. The alignment of this pattern will line up itself to the Gate of God that runs through the Galactic Equator and the Galactic Center. This is only speculation, but it is rather interesting to delve a bit into the possible meta-physical properties that might constitute the mechanics of this celestial hexagram. Throughout human history, the Star of David has been worshipped.

It goes as far back as the Tower of Babel. When the Bible describes that men wanted to reach the 'Stars of Heaven' it was not necessarily prescribing the quest for height. Some Biblical research actually suggests that the Tower of Babel was a quest to construct a trans-dimensional 'gate' or portal door into the spirit realm using a 'key' that incorporated esoteric knowledge based on Sacred Geometric technologies and magic that Nimrod acquired. It was the quest of Nimrod to basically enter or 'invade' Heaven itself and obtain 'Godhood' status; much like Lucifer has, is and will attempt to do. Perhaps this is why YHVH took a very drastic step to confound the single known language of man to have this type of technology and/or knowledge lost. The very meaning of the word Babel has a connotation to being a place of a Gate, a 'Gate or Door of the Gods'. Many speculate that the geometric configuration or symbol that King Solomon had i.e., the Keys of Solomon was alluding in part to Remphan or a hexagram.

Why YHVH forbids such practices is because such geometric configurations and esoteric knowledge mixed has come from Fallen Angels. Such mixing perhaps provides such a possibility to be able to operate the 'geometric key' to delve into the door of spiritual dimensions; certainly quantum physics and meta-physics postulate that it is possible in theory. In summary, the Star of David celestial alignments appear to have definite numerical patterns with corresponding symmetry to other Star of David alignments and with the total lunar eclipses patterns. The 13 Star of David planetary alignments that occurred since 1990 led-up to the Tetrad of 2014-15.

Like the total solar eclipses on the 1st of Av that occurred in 2008, 2009 and 2010 that starting the 'countdown' to the 7 year solar-lunar pattern, it appears that this same principle or 'astronomical law' was also at work with the Star of David alignment pattern leading to some sort of a 'cosmic countdown'. These 13 Stars of David planetary alignments are like a celestial drum-roll that could be corresponding to the 'labor pains' that Jesus Christ warned about would characterize the Last Days before His Return. According to a generic description of a woman's labor pains, the contractions become more intense and closer together in terms of frequency. It just so happens that the Star of David alignment pattern in the Heavens likewise has an increase in frequency leading up to singular point in time. What event will that be?

This is assuming that the Tetrad of 2014-15 is related to when the LORD will focus back His prophetic attention to national Israel. Such cosmic Signs could thus have bearing as to just how close the synchronization of prophetic events yet to be fulfilled are about to be. Such celestial Signs could very well be signaling that the end of the Church Age is about to occur. Thereafter, then the start the Tribulation Period is to begin and the coming New World Order is about to be 'birthed'. Perhaps the Rapture of the Bride of Christ might possibly be connected to such a unique pattern of the Star of David alignments; they do appear to be a plausible 'Signs'. Maybe they are signaling something or someone to be prophetically 'birthed'. Perhaps we are entering into a time where there will be a 'birthing' of multiple prophetic events in these Last Days, as the alignments appear to converge on a prophetic on this Last Generation.
