NEWS RELEASE AUGUST 31, 2015

### VIEWING DELTA PAY STUBS

Pilots who receive benefits from the Delta Pilots Disability and Survivorship (D&S) Plan can view the pay stubs online at **DeltaNet ExtraNet** (the same website that is used to check availability/list for non-revenue flights). To view a pay stub or to look for a manual check that may have been written as a correction to LTD benefits:

1. Log onto **DeltaNet ExtraNet** using your User Name (normally your PPR number) and Password.
2. Mouse over **Employee Info** and scroll down to **Self Service**.
3. Mouse over **My Pay & Taxes**, scroll over View and down to **My Pay**.
4. Under **Paycheck Information** select the year and then select the date of the check from the drop down list.

The codes that are used on the pay stubs can be viewed by clicking on **Delta Paycheck Details-Sample**. The following three codes are used in displaying the Long Term Disability (LTD) benefit and the offset to that benefit:

**PENIONOFFS**: This is the amount of Delta retirement benefits that offset (reduce) LTD benefits on a dollar for dollar basis. The **PENIONOFFS** figure is comprised of the combination of Delta retirement benefits that are/were received including any lump sum distributions from the Delta Pilots Retirement Plan or Money Pension Purchase Plan as well as any annuity paid by the PBGC. If any benefits are/were paid in a form other than a single life annuity, those benefits are converted to a single life annuity value that is equivalent to the amount received.

**PLTVRLTD**: The variable LTD benefit.

**PLTFXLTD**: The fixed LTD benefit.

The **PLTVRLTD** and **PLTFXLTD** are added together to produce the current gross LTD benefit. The **PENIONOFFS** is subtracted from the current LTD benefit to produce the net LTD payable to the pilot before withholding for taxes and miscellaneous deductions.

For reference, the Monthly Income Survivor Benefit for eligible survivors of pilots who were receiving LTD benefits at the time of their death is 50% of the sum of **PLTVRLTD** plus **PLTFXLTD** *before* the reduction of **PENIONOFFS**.
