- Floats along to follow ground contour.
- Threaded depth adjustment limits down travel while allowing the semi-mounted frame to follow the contour of the land.
- Moveable axles with **several** mounting positions (intersect/offset/retracted)
- **FORGIVENESS** in less than desirable planting situations!
- 13" Diameter Wheels.

ORIGINAL ROW CLEANERS

PART #	MODEL TO FIT	WHEEL DIA.	PRICE EA.
B1332	JD / KINZE / WHITE	13"	\$ 400 SALE
B1334	CNH	13"	\$ 400 SALE
B1532	JD / KINZE / WHITE	15"	\$ 425 SALE

- Rigidly mounted directly to planter unit face plate
- Easily adjustable to 1/4" increments with lift assist handle and spring.
- Movable axles with several mounting positions (intersect, offset, retracted)
- Toothed steel wheels with diamond shaped points allow plenty of upward adjustment in loosely worked soils.

12.5" RAZOR BACK WHEEL
*Works well in cover crop and cornstalks.
Wheels inner lock for better trash movement.

13" & 15" STANDARD WHEEL

SIDE TREADER WHEEL
(USE WITH 12.5" & 13" WHEELS)

Smart Clean™ System

See how the new Smart Clean™ System makes manual row cleaner adjustments a thing of the past.

Combining a Bluetooth connection with an easy-to-use smart phone app, our new Smart Clean System allows you to raise and lower your row cleaners by varying the amount of air pressure in the cylinders. A directional control valve lets you select up, down or float without requiring any air lines or manual valves installed in the cab.
