

## **Better Equine Management**

Hello There!

My name is Jana Harrington Barcus and below is a little background about myself and what our Team at Better Equine Inc. can do to help you and your animals.

I have years of Experience with properly feeding animals, training horses, fitting saddles, tack & producing large events. For years I have sold Commercial & Grind/Mix Feed for various Coops and Feed Stores by going out in the field to the Ranches and Farms for the business. A Midwest Regional Ambassador for Purina Animal Nutrition within Ernie Rodina's district for many years gives even more background and training. Growing all species knowledge with Continued Education is a must in the Agriculture World as costs and quality feed mean more and more each year.

Better Equine Management is All Around Horse Management that is necessary for all equine events. Anything you do with your horses, whether its ranch work, roping, barrel racing, competitive or pleasure riding, mounted shooting, jumping, dressage or driving (just to name a few!) all require proper horse management to enjoy success. My lifetime experiences and continued education enables me to help horses and their owners to have fun and enjoy accomplishing their personal goals. B E M includes proper feeding and conditioning, a great vet and farrier, proper fitting tack and more. Receiving experienced help makes it a lot easier to have fun with your animals. I am very passionate about my animals and I want to supply them with great Feed. I personally see the results of the many hours' nutritionists, consultants and all involved, have put in to develop a quality bag of feed. Please review some of our videos, before and after pictures along with testimonials from many happy owners. Give us a call to help with your animals!

### **PRODUCTION EXPERIENCE & EDUCATIONAL EVENTS HELP ON &/or PRODUCED**
