

## May 2016 Newsletter

Hello, Members,

We had a good cleanup day. Dug up a few trees, broke up a slab of cement, removed stakes on some trees. It's up to all of the owners to take care of their trees on their property and in the parkways. We spruced up the front entrance planted a few more plants, we are not quite done yet, plan on painting the Cedar Cove sign.

We have a college student, Jordon Kershner 308-224-0515 willing to hire out to help anyone with odd jobs around the community at their homes. While we have Jordon available, think about checking your maintenance list that maintains your home.

Our drive ways need to be taken care of. Take care of all cracks even the big spaces, the ones next to the sidewalks and the entrance way into the garage. You can use foam or rubber filling, get those at Menards, by the concrete section. Anyone one needing to paint their driveway's strip I have that color for you. We have a person coming to jack up a few driveways, if you want to get in on that, I can give you the contact person, maybe you can get a discount if there is more than one. Who knows, until you ask. Have a great SUMMER!

Board Member of the Cedar Cove HOA , CHRISTINE
