

CS800 STEPPER

The CS800 Stepper combines the familiar dependent stepping action with an arched step-rail design and impressive 16" maximum step height for an effective lower body workout. The narrow 2" pedal spacing (Q-Factor), large cushioned pedals, and solid handrail design combine to give you an incredibly comfortable and space-efficient cardio unit.

CS800 STEPPER

- 16-inch maximum step height with 20 levels of resistance satisfy the needs of beginners or advanced exercisers
- 2 degrees of inversion at each foot pedal places the user in an anatomically correct position
- Arched step-rail design allows for a more natural stepping motion
- Padded handlebars surround the user for a secure and stable workout
- Shielded concave roller wheel system for superior stability and durability
- Ease of use allows users of any fitness level to get an effective workout

CS800 CONSOLE FEATURES

As with any product, a major importance is the user interface. We focused on making everything easily accessible and comfortable: A storage tray for a phone, keys, or an MP3 player, ergonomically friendly pulse grip handles for a more natural hand position, and a turbo cooling fan to keep your clients cool and encourage them to work out longer. Our large, easy-to-read console gives your clients constant feedback from calories to distance to time.
