

Nematode and Disease Fee Schedule

Western Laboratories made a major investment into Real Time DNA testing of viruses, bacteria, fungi and some nematode species, such as potato cyst. Real Time means we can quantitatively and qualitatively determine the amount and subspecies of each disease. The DNA testing will compliment the work being done by our universities.

TEST	NEMATODE AND DISEASE TESTS	PRICE
50	<i>Complete – Root knot plus cyst nematode (eggs and larvae)</i>	60.00
51	<i>Root knot nematode, including identification of species</i>	46.00
52	<i>Sugar beet cyst nematode – eggs and larvae counts</i>	35.00
53	<i>Verticillium / root lesion nematode complex</i>	132.00
54	<i>Midseason nematode testing: 5 nematode tests starting at 1400 growing degree days</i>	231.00
67	Wireworm Test	37.00

For **RUSH** on nematode and disease testing add **\$15.00 per sample**
