

Tours

The Sherrard Public Library District encourages group visits to the library by local schools, organizations, and groups. The library requests that any group schedule an appointment at least two weeks prior to their visit, even if staff assistance is not required. In this way, the library can avoid conflicts between groups and provide better assistance to all our users.

Teachers or adult supervisors must remain with the group at all times. Groups should not split up to different areas of the library unless each part of the group has a teacher or supervisor with them.
