

Warnings to Man:

This in turn is causing great stress to the planet and will if continued cause mass destruction far and wide

8 September 2006

Greetings at this time this place.
It is indeed noted the shift is upon us this day.

We would welcome more input to Source from the many. Many are gathered on your plane of existence at this time awaiting the arrival of the Hierarchy. Many tumultuous times are ahead of man this hour.

Man must recognise his origin and begin to explore to make the necessary changes for in so doing will lift his consciousness to aid the many at this time.

Much deliverance abounds on your plane at this time and the many in waiting are preparing for the cataclysmic change.

Note all is not well with your planet at this time and mass healing is required to get it through its rebirthing stages.

It is within man's capabilities at this time to comprehend the 'All' for it has been eons past that first generated this experience.

Man will indeed become enlightened and transpire to the grand evolution for indeed this was requested.

Man must make room for the change to begin.

Man must make time to raise his vibration this hour for in so doing will raise the vibration of the planet which is needed this hour.

Many will see this to be the end of existence as you know it, but indeed it will propel you into the next dimension to begin further exploration of the soul lessons.

We leave in Love and Light this day.
Amen

30 August 2006

Greetings at this time this place.
It is indeed noted the shift.

It is wise for man to sit up and be counted as he has indeed slipped from Grace at this time.

Man fails to see his actions cause him untold pain and hardship.

If only he would listen to his inner self and not be influenced by things exterior.

It is with great pleasure we have Jonathon with us this day to welcome you and say how delighted he is with progress thus far.

It is indeed paramount at this time to repeat, repeat, repeat for man to cease all of the havoc he is making.

He is indeed blind to his actions. This in turn is causing great stress to the planet and will if continued cause mass destruction far and wide.

If man could see what he is doing and change his actions then much could be saved.

It is important this hour to reach the many, to make them understand the destruction they are causing.

You must be willing to share your knowledge with as many people as are in need this hour.

Rest assured many will seek thy guidance this hour and many will deliberate this hour.

Thy Heavenly Father reigns supreme. It must be done unto others as thyself, understand.

Gracious is he who accepts the Word. Gracious is he who acts on the Word, Gracious is he who repeats the Word.

In Love and Light.

Amen
