

WORLD WAR 3 - SOLAR ECLIPSE?

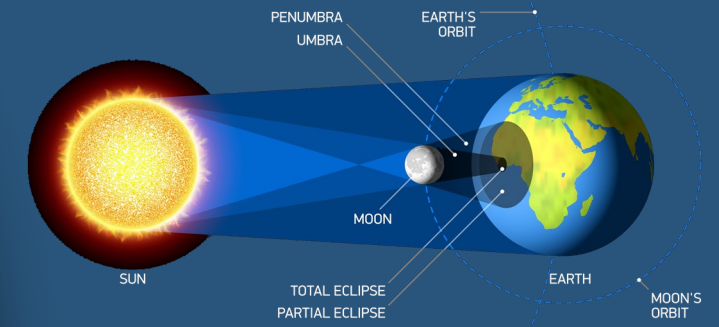

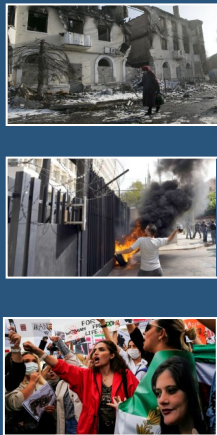

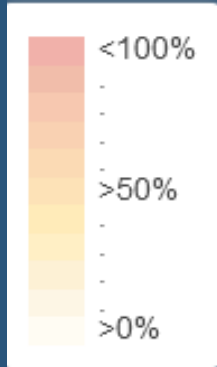

The purpose of this illustration is to depict the Partial Solar Eclipse on October 25, 2022 over Russia. The Point of Total Eclipse will Swivel from Greenland to India. The Shadow cast upon the Earth will almost be a Perfect Half Circle. It would appear to swoop across Europe, the Middle East and Near East. What is possible Significant is how the Shadow casts its 3 Main Markers that correspond to the 3 City Capitals of Kyiv, Jerusalem and Teheran. Incidentally, the 3 Cities are the Centerpiece in the Globalists Luciferian Quest to foment Chaos as the Partial Solar Eclipse epitomizes. This is so they can usher-in their Manufactured 'Order' and Rule the World. Prophetically Speaking, the Solar Soave of Darkness portrays a Darkness Descending upon the Center-Points from where the New Order will be coming from. This is from this Area of Darkness that its World Leader will be promising Peace and Safety. Foremost, it will be to Israel, but because of the Ukraine War and the Instability in Iran. However, the Mainstay of the Variables is Russia. Despite Setbacks and a De Facto War with NATO, it will lead the Muslim Cohort with Iran and Turkey to attack Israel during the coming 7-Year Tribulation Period, according to the Bible.

DARKNESS DESCENDING AND RISE OF THE NEW WORLD ORDER OUT OF CHAOS

This is the 2nd Partial Solar Eclipse of 2022. It is visible from most of Europe, Northern Africa, the Middle East, and Western parts of Asia.

ECLIPSE TOTALITY

The illustration shows what the Eclipse approximately looks like near the Maximum Point. The Curvature of the Moon's Path is due to the Earth's Rotation.
