

Natural Daylight Solutions Ltd

Integrated Natural Ventilation & Daylight Solutions

NDS DayTube / DayFlex

The NDS DayTube rooflights are designed for fast, hassle free installation and maximum light transmission. The polycarbonate dome sits on a roof plate to collect the maximum amount of daylight possible and it is reflected to the interior below through a rigid aluminium tube. Single skin polycarbonate dome with double sided UV protection provides 90% light transmission.

Options available:

Sizes:	3 diameters to maximise light transmission (12"/305mm, 14"/355mm, 21"/535mm)
Roof plate:	Plain tile, Profiled tile and Plate options
Roof kits:	Pitched and flat
Glazing Colour:	Clear, Textured, Opal
Glazing Skin:	Single glazed
Configuration:	Fixed unit or Fixed with Kerb
Kerb:	PVC Kerb
Ventilation:	Non-opening only
Light Transmission:	90%
Total Reflection:	DIN 5036-3 95%
Diffuse Reflection:	DIN 5036-3 <12%
Brightness – along:	ISO 7688 89%
Brightness – across:	ISO 7688 88%
Image Clarity:	ASTM E-430 95%
