

Roger and Diane -

Sending you a picture of our Marley attached below.

Throughout Marley's first year she has proven herself a fast learner that is very eager to please, from learning all the rules of living in our home to her new invisible fencing, taking it all in stride. Marley shows great promise in the field with her interest in hunting and willingness to follow verbal and hand commands. We are extremely satisfied with Marley and have appreciated your continued support over the past year with any of our questions. Marley has been a great addition to our family of six and we are looking forward to many years of companionship and enjoyment from her.

Thank You -

Cory and Brenda Garoutte
