Dear Eve,

Again, let me express my sincere appreciation for the discussion that you and your staff presented to both my staff and the staff of Dr. Jones O. Kumi of Mercy Hospital.

You and your staff's discussion as well as enthusiasm impressed all of us who heard you, as well as enlightened us on the steps necessary to provide your office with the information that is needed to help gather data about this disorder. It is without hesitation that I offer my sincerest thanks as well as a hearty congratulations on the job that you and your team have done to this point. Indeed, without you, our city would have never been able to benefit from the Ryan White Title I and Title III Acts that have provided extra money to the interested providers in this city to help treat HIV infection.

Please do not hesitate to call upon the resources of myself or my staff as well as all of us at DCHC, spearheaded by Ms. Mary Stephens Ferris. In the meantime, do not hesitate to contact us if there is anything we can do to help support your efforts further.

Sincerely,

I. C. Reyes, Jr., M.D.

Medical Director, Detroit Community Health Connection
