Salvation Army Assistance Application

When filling out the application for help with your potential disconnect of electric or water, make sure you submit a completed application. If application is not complete it will be mailed back to you, which may delay the processing and payment to the utility company. We have confirmed with local utility companies that shut off notices are mailed two weeks in advance of shut off date. So, please be proactive in completing your assistance application. No last minute requests will be processed.

Our program is designed to help clients who have had a sudden unexpected financial emergency within the last 30-60 days.

Mandatory eligibility requirements are:

- Documented Proof of Financial Crisis- For example: hospital stay, car repair(s), and loss of job.
- Copy of Disconnect Notice
- Verification of Household Income

Please keep in mind that our program can only help with up to \$200.00 and you must know where the rest of money is coming from before you apply. (Proof of this may be required.) This program can only help once every two years.

You can access this application through our website allianceforshelter.org, Department of Social Services, and some local churches. If you have questions, please call 540.459.3212 Monday- Friday from 8:30am – 4:30pm.

Sincerely,

Sheila Orndorff
