

ALL STARS GYMNASTICS CLUB

MISSION, VISION AND OBJECTIVES -

All Stars GC was set up in March 2016 after a need had been identified within the area of Taffs Well and the A470 corridor for recreational gymnastics classes.

Our mission is to increase participation at grass roots level as much as possible by providing these classes in the local village hall. The classes are to be community based and open to children of all ages and abilities without being cost restrictive. We want the classes to be fun, full of enjoyment, and to take place in an environment where children can learn new gymnastics skills safely with the help of qualified staff.

Our vision is that eventually we will be able to offer an environment where we can provide a wide range of different types of classes to cater for all needs and abilities, recreational and competitive, within a dedicated facility and to ensure that this leads to a sustainable future for the club.

Objectives -

Obtain a dedicated facility.

To increase participation in recreational gymnastics within the local community.

To help all gymnasts develop their skills, increase their confidence, and reach their full potential.

To offer opportunities for those showing aptitude to increase their training levels and enter competitions.

To provide a pathway for coaches to develop their knowledge, obtain the relevant qualifications necessary within different gymnastics disciplines, and become part of a great coaching team.

To increase volunteer participation within various roles e.g coaching, fundraising, social events, etc
