

Identity Management

SOLUTIONS

n-Link offers a holistic model-based approach to Enterprise Architecture (EA) that aligns to the Federal Enterprise Architecture (FEA) that is based on The Open Group Architecture Framework (TOGAF) Architecture Development Method (ADM) and applies Agile-like development processes.

We design and implement innovative staffing solutions by augmenting part-time and on-call staff to significantly reduce budget expenses while also meeting surge requirements.

CAPABILITIES

Identify Management:

- ✓ We follow Federal Enterprise Architecture
- ✓ We use Agile software development
- ✓ We strike a balance between the rigorous application of theory and the practical focus of providing a tailored customer solution
- ✓ Our team prioritizes data repository and software re-use
- ✓ Our total project management prioritizes quality assurance for continuous process improvement

CUSTOMERS

US Department of Agriculture (USDA)

For USDA OCIO's eGov Office, *n*-Link designed and integrated the first Federal Government enterprise-wide eAuthentication service that met USDA's 29 independently funded sub-agency needs. *n*-Link designed and implemented a mobile Homeland Security Presidential Directive-12 (HSPD-12) enrollment program for the USDA. The original deadline for all government agencies to be HSPD-12 compliant was October, 27th 2008, and not a single agency met the deadline. Our mobile approach deployed 47 registrars on circuits of 3-5 cities for over 6 months covering 161 cities to enroll 160,000 federal employees. Roughly 100,000 were located in two-thousand offices in rural towns all across the continental United States, Alaska, Hawaii, the Pacific Islands, and Puerto Rico.

CASE STUDY

Due to the great success of the USDA Enrollment Program, an interagency group was formed to include the Department of the Interior, Department of Energy, Department of the Treasury, Office of Personnel Management, and General Services Administration, to operate a second cycle of enrollment stations for all of the agencies.
