6mm. HD SICKLE FOR MAC DON

Many Growers who own a Mac Don Draper head have been commenting through the years about excessive bolt breakage on their sickle. Through our research we have found some common results. The speed of the sickle needing to run at 600-650 rpms to maintain desired ground speed, adds additional stress to the 12-24 bolts used for the sections. Upon further research we found that most manufacturers that run these sickle speeds usually run heavier section bolts on the sickle.

We at R.E. Skillings Supplies Inc. have come up with a sensible solution for the bolt issue.

The **SKILLKUT™** Sickle

Benefits of Our Sickle:

- 6mm. (Heavy Duty) Diameter ELIPTICAL OR Knurled Section Bolts instead of 12-24 bolts.
- Choice of section available: Tiger Shark (3.5 TPI), **SKILLKUT** (5.3 TPI), or the Super Seven (7 TPI) standard section.
