

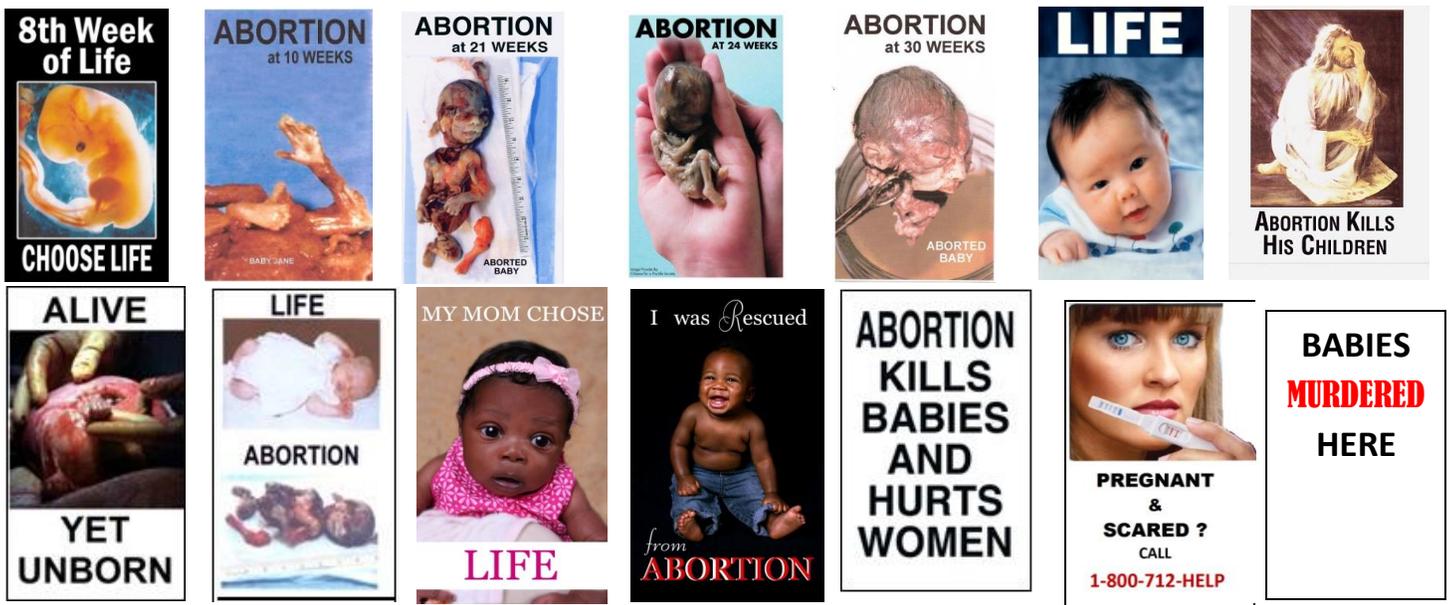

Graphic Face the Truth Signs Save Lives

At Planned Parenthood in Bridgeville, PA a young woman with a small child in the back seat stopped the car to talk to Tom who was holding a 3 by 5 foot picture of an aborted baby. Tom thought, here we go again with “my child will have nightmares from seeing that awful sign”. But instead she said, “I saw people like you out on the road a few years ago. I was scheduled to have an abortion but that sign changed my mind. And there in the back seat is the joy of my life.” She said “Thank you and God bless you”. The light changed and she drove off. And this story has been repeated time after time. Yes, these signs do “shock and offend”. They also save babies’ lives!

Here is all the information you need to set up a *Face the Truth Tour* and save lives in your area:

1. To order signs use the form below.
2. You will receive with your order a booklet and DVD from the *Pro-Life Action League* explaining the purpose, planning, media, local involvement and logistics of a *Face the Truth Tour*.
3. You will get specific details on how to mount the signs on Styrofoam or similar material.
4. You will also get notes on some of our experiences doing 75 tours over ten years.
5. And finally, you will receive samples of handouts that you can copy or order.

Your *Face the Truth Tour* will not only save the lives of babies, but you will also be changing the hearts and minds of the American people. Only then will legal abortion end in the United States. And you will have helped save the lives of millions of innocent unborn babies.

Signs are 3' wide by 5' high, laminated, full-color, un-mounted.
