# Introducing the from C

## A Revolution in Motorcycle Lighting

Welcome back Full throttle readers! It's now August and I am here to tell you of a new product that has just come out. The Shark Demon Headlight from Custom Dynamics!

Motorcycle riders and passengers understand the importance of having a reliable and powerful headlight. It's not just about illuminating the road ahead; it's also about ensuring visibility and safety during night rides or adverse weather conditions. Custom Dynamics, a leader in motorcycle lighting and accessories, has once again raised the bar with their latest innovation: the Shark Demon Headlight. This new product revolutionizes the motorcycle lighting landscape with its cutting-edge technology and striking design.

## Advanced LED Technology

At the heart of the Shark Demon Headlight is state-of-the-art LED technology. Custom Dynamics has long been known for their high-quality LED products, and this headlight is no exception. The Shark Demon Headlight features a combination of high-output LEDs that provide an incredibly bright and clear beam. With a color temperature of 6000K, the light emitted is close to natural daylight, which significantly enhances nighttime visibility. This not only makes the ride safer but also reduces rider fatigue on long journeys.

The headlight's beam pattern is meticulously designed to ensure optimal coverage. It features a sharp cutoff to prevent blinding oncoming traffic, a common issue with poorly designed aftermarket headlights. Additionally, the LEDs are designed to have a long lifespan, reducing the need for frequent replacements and offering a reliable lighting solution for years to come.

## Aggressive Design

One of the standout features of the Shark Demon Headlight is its aggressive and futuristic design. Custom Dynamics has crafted a headlight that not only performs exceptionally well but also adds a distinctive aesthetic appeal to any motorcycle. The headlight's sleek housing and sharp lines give it a menacing look, hence the name "Shark Demon." This design is sure to turn heads and make any motorcycle equipped with it stand out from the crowd.

The headlight is also designed with durability in mind. The housing is made from high-quality materials that are resistant to impact, vibrations, and harsh weather conditions. Whether you're riding through rain, snow, or rough terrain, the Shark Demon Headlight is built to withstand the elements and keep performing at its best.

## Easy Installation and Compatibility

Custom Dynamics understands that not all riders are experts in motorcycle mechanics. That's why they've made the Shark Demon Headlight easy to install. It comes with a plug-and-play design, meaning it can be installed without the need for any special tools or extensive modifications. This user-friendly approach ensures that riders of all skill levels can upgrade their headlights with minimal hassle.

The Shark Demon Headlight is also highly compatible with a wide range of motorcycle models. Custom Dynamics has ensured that this headlight can be easily integrated into various makes and models, making it a versatile choice for many riders. This compatibility, combined with its advanced features and striking design, makes the Shark Demon Headlight an attractive option for motorcycle enthusiasts looking to upgrade their lighting.

# Shark Demon Headlight Custom Dynamics

## Enhanced Safety Features

Safety is a paramount concern for Custom Dynamics, and the Shark Demon Headlight is packed with features designed to enhance rider safety. The high-intensity LEDs provide superior visibility, allowing riders to see and be seen more effectively. This is particularly important during night rides or in low-visibility conditions, where a powerful headlight can make all the difference.

In addition to its bright beam, the Shark Demon Headlight also features a built-in Daytime Running Light (DRL) mode. The DRL improves daytime visibility, making the motorcycle more noticeable to other drivers. This added visibility is crucial in preventing accidents and ensuring a safer riding experience.

## Conclusion

The Shark Demon Headlight from Custom Dynamics is more than just a lighting upgrade; it's a comprehensive enhancement that combines advanced technology, aggressive design, and enhanced safety features. Whether you're a casual rider or a hardcore motorcycle enthusiast, this headlight offers significant benefits that are hard to overlook. With its easy installation, compatibility with various models, and superior performance, the Shark Demon Headlight is poised to become a favorite among riders looking for the best in motorcycle lighting.

Custom Dynamics has once again demonstrated their commitment to innovation and quality with the Shark Demon Headlight. ## Don't Mess With Older Women...!

She walked up and tied her old mule to the hitching post. As she stood there, brushing some of the dust from her face and clothes, a young gunslinger stepped out of the saloon with a gun in one hand and a bottle of whiskey in the other. The young gunslinger looked at the old woman and laughed, "hey old woman, have you ever Danced?"

The old woman looked up at the gunslinger and said, "no, i never did dance...never really wanted to."

A crowd had gathered as the gunslinger grinned and said, "well, you old bag, you're gonna Dance now," and started shooting at the old woman's feet. The old woman prospector not wanting to get her toe blown off -- started hopping around. Everybody was laughing.

When his last bullet had been fired, the young gunslinger, still laughing, holstered his gun and turned around to go back into the saloon.

The old woman turned to her pack mule, pulled out a double-barreled shotgun, and cocked both hammers. The loud clicks carried clearly through the desert air.

The crowd stopped laughing immediately.

The young gunslinger heard the sounds, too, and he turned around very slowly. The silence was almost deafening.

The crowd watched as the young gunman stared at the old woman and the large gaping holes of those twin barrels.

The barrels of the shotgun never wavered in the old woman's hands, as she quietly said, "son, Have you ever kissed a mule's behind?"

The gunslinger swallowed hard and said, "no m'am ... But... I've always wanted to."

There are a few lessons here for all of us:

- 1 - Never Be Arrogant.
- 2 - Don't Waste Ammunition.
- 3 - Whiskey Makes You Think You're Smarter Than You Are.
- 4 - Always, Always Make Sure You Know Who Has The Power.
- 5 - Don't Mess With Old Women; They Didn't Get Old By Being Stupid.

I just love a story with a happy ending.

## \$1 Million in Heaven

Joe asked God, "How much is a penny worth in heaven?" God replied, "\$1 million."

Joe asked, "How long is a minute in heaven?"

God said, "One million years."

Joe asked for a penny.

God said, "Sure, in a minute."

## "Elementary, Watson"

Sherlock Holmes and Dr. Watson went on a camping trip. After a good meal and a bottle of wine, they laid down for the night, and went to sleep. Some hours later, Holmes awoke and nudged his faithful friend. "Watson, look up at the sky and tell me what you see." Watson replied, "I see millions and millions of stars." "What does that tell you?" Watson pondered for a minute. "Astronomically, it tells me that there are millions of galaxies, and potentially billions of planets. Astrologically, I observe that Saturn is in Leo. Horologically, I deduce that the time is approximately a quarter past three. Theologically, I can see that God is all powerful and that we are small and insignificant. Meteorologically, I suspect that we will have a beautiful day tomorrow. What does it tell you?" Holmes was silent for a minute, then spoke. "It tells me that someone has stolen our tent."

## WHAT?????

One day a man came home from work to find his wife crying hysterically in the kitchen. "What's wrong, dearest?" asked the confused husband. "Oh darling," sobbed the wife, "I was cleaning little Suzie's room when I found whips, handcuffs and chains under her bed, along with a very erotic porn magazine! What ever are we going to do?" "Well," replied the man, "I guess a spanking is out of the question?"

## HUH!

Three elderly men are taking a walk outside their nursing home. The first one says, "Windy, isn't it?" The second one says, "No, it's Thursday!" The third one says, "So am I. Let's go get a beer."

### START COLLECTING NEW TOYS

On a mission to feed kids year 'round. This ride will have bikers and families coming in with backpacks filled with kid-friendly food. As we collect the food and donate it to Ritenour Co Care Pantry at 9303 Midland Blvd, Overland, MO families will have access to the food items that we collect.

The backpack stays with us only for us to do a school supply drive and hand them out in August filled with supplies so kids can start school off right.

Our goal this year is to hand out 2000 backpacks to those in need.

Also, this year we are adding toys to our mission so kids in need won't wake up to nothing on Christmas morning.

We want them to believe that Santa is still out there.

POKER RIDE will have Gift Baskets, 50/50, T-Shirts and donation bucks at Su Wallers all day.

Below is a list of some items you can fill your backpack with for the Poker Run:

Oatmeal, juice boxes, peanut butter, chicken noodle soup, spaghetti O's, ravioli, chilli, boxed mac and cheese, pudding cups, cereal bars, Cheeze-its, and Rice Krispie treats.
