

# Color-Coded Piano Arrows from Fretboard Toolbox

All of the colored arrows below match up with the colors used on the Fretboard Toolbox Standard Notation Jigs for piano, guitar, mandolin, ukulele, etc., available on the “Free Extras” link of the Fretboard Toolbox website: [www.fretboard-toolbox.com](http://www.fretboard-toolbox.com) (All of the matching colors represent notes in the same octaves on all of the instruments). If you'd like, you can print these, cut them out, and put them on your piano with the middle lines between each of the “B” and “C” keys on an 88 key keyboard. If you have fewer than 88 keys, make sure that the green (C4) tab starts at the “C” note located on the middle of the keyboard.

Email me at [scott@fretboard-toolbox.com](mailto:scott@fretboard-toolbox.com) if you have any questions!

Scott
