**Medical Treatment:** We will always make every effort to contact you or your emergency contact to inform you of your pets medical situation may it arise. In the event that medical intervention is necessary:

**For pets requiring extra care-** diabetic emergencies, cardio-pulmonary events, seizures, or any other condition or injury requiring 24hr care :

I allow my pet to be transferred to the nearest 24hr hospital and will be responsible for any charges incurred. **INITIAL** \_\_\_\_\_

**Non-Emergency Care-** medication, minor injury, gastro-intestinal upset (vomiting/ diarrhea), etc...

If your pet needs any additional medication or **non -emergent** medical treatment, please select one of the following:

\_\_\_\_\_ I allow up to \$\_\_\_\_\_.00, in addition to boarding costs, to treat my pet in the event I cannot be reached.

**OR**

\_\_\_\_\_ I **do not** want my pet treated unless I am contacted prior.

**Emergency:**

In the event of an emergency, should my pet named \_\_\_\_\_ require cardiopulmonary resuscitation (CPR), including cardiac compression, positive pressure respiration, emergency drugs, or other heroic intervention, **I request (initial)** \_\_\_\_\_ **or decline (initial)** \_\_\_\_\_ that the doctor(s) at Angel Animal Hospital pursue such medical care as indicated below. **I have been informed by Angel Animal Hospital that less than 5% of animals that require CPR will survive to be discharged from the hospital.** I understand that despite the best efforts of the veterinarians and staff at Angel Animal Hospital CPR may not save my pet's life. I also understand that even the most successful CPR that restores my pet's life may not allow my pet to regain his/her normal mental and physical health and, thus, may leave him/her as an invalid. I understand Angel Animal Hospital is not a 24hr hospital, and if CPR is successful my pet will need to be transferred to a 24hr emergency hospital for further care. I agree that after exercising reasonable medical judgment, and a veterinarian determines that there appears to be virtually no hope for medical success, further CPR procedures will cease.

**I request CPR be performed on my pet, and allow my pet to be transferred to a 24hr hospital for continued monitoring**
