

To whom it may concern,

S/Y Veritas is a 50 ft/20 gr tonnes sailing yacht and which now is on a round the World tour. The vessel is at present sailing in South East Asia and equipped with an integrated Navionic navigation system incl. a Raymarine Quantum Q24C Radar, stationary and handheld GPS, stationary and handheld VHF, Raymarine AIS, Inmarsatphone2 and IridiumGo. NASA Navtex for PC, Raymarine Ecosounder, Sonar/Fishfinder Raymarine Dragonfly 7 pro, Raymarine Auto-pilot EV400 and Raymarine c125 plotter

Ulf Strom have been staying onboard S/Y Veritas as First Mate from 27 June to 25 July 2018 on her way from Bali to Flores via Lombok, Sumbawa and Komodo Island in Indonesia. He has been an appreciated crewmember and fulfilled his tasks and duties onboard in a thorough and professional manner. Should he ever feel being available as Captain, I will have a position for him in the coming year.
