## **"Billy" Eduard A. Meier - The Pleadian/Plejaren Contact Case**

BEAM (= "Billy" Eduard A. Meier) was born on February 3, 1937, Niederflachs 1253, 8180 Bülach/ZH, Switzerland.

He had his first contacts with the extraterrestrial Sfath from Erra (Pleiades/Plejaren), from 1942 to 1953. Following contacts--from 1953 to 1964--with Asket from the DAL universe.

**Since 1975 and until Monday, July 31, 2006, there have been 830 personal and 1019 telepathic contacts with Pleadian/Plejaren extraterrestrials and members of their Federation. The contacts are still on-going. 431 contacts are documented and available as contact reports.**

The Pleadians/Plejarens and their confederates are human beings with physical bodies and look very much like the people on Earth, with the exception of some minor anatomical differences, especially regarding the confederates. They live for 1,000 years, approximately. Their home planet--somewhat smaller than Earth--is called Erra. Its population is about 500 million people, while the entire federation has a population of 120 billion. The Pleiades/Plejaren are not identical with the Pleiades we can see on the night sky. They are 80 light-years beyond the Pleiades in another space-and-time-constellation/configuration (= in another dimension). The Pleadians'/Plejarens' consciousness ("spirit") and technology are much higher developed/advanced than here on Earth. The Pleadians/Plejarens and the people on Earth have the same ancestors, but have developed separately, etc.

**As of 2006: 20 volumes (200 pages, softcover) and 8 volumes (ca. 500 pages, hardcover) of Contact Notes are available (German only!)**

Subject matters discussed: Creation and its creations, origin of the universe, earth history, science, astronomy, spirituality, reincarnation, genetic engineering, terrestrial religions, human evolution, spiritual teachings, interplanetary space flight, galactic federation, extraterrestrial origin and visitation to Earth, telepathy, overpopulation on Earth, destruction of the environment, male-female relationships, government and military cover-ups, and many more.

### **Hundreds of photos taken of beamships and their landing tracks, among other things**

Photographs of 5 different variations of spacecraft, from 3.5 to 7 meter, usually piloted by humans. Other spacecraft and telemeter discs are remotely controlled and have also been photographed on several occasions. There also exist huge spaceships for traveling through space. There are photographs of single or multiple objects, day and night settings, above and below horizon line. There exist video and super 8 footage. Film analyzed by electron microscope, laser scanning and computer functions, thermogram edge identification, Z scale contour, density and film grain inspection, processed by electron microscope, microdensitometer, infraredometer, vidicon tube, digitizer, image process computer equipment.

### **Different segments of 8 mm motion picture film (available on video and DVD)**

The films show variations in flight of ships; multiple craft appearances; instantaneous spatial translations by space craft; portions of the films have been analyzed in frame by frame format.

### **4 metal, 1 biological and 9 mineral and crystal samples**

Metal analysis was described thoroughly in video tape format (*Beamship the Metal*). It showed that the metal was made by a cold fusion process. This technology is not yet known by terrestrial metallurgy.

**A 20 minutes long sound recording of a beamship's whirring sound**

The sound recordings of a non-shielded beamship was taken in the presence of several witnesses who heard the deafening noise, but weren't able to observe the ship that was screened from sight. The loud whirring sound could be heard for more than 4 kilometers as was confirmed by persons who soon arrived at the location. The scientific investigation showed that the sound is compromised of many tones/frequencies with unusual anomalies and rapid changes in tone and frequencies.

**Landing tracks**

Depending on the type of beamship there could be seen 1 or 3 landing tracks. When three, they were 120 degrees apart, circular; grass was depressed in counterclockwise rotational direction, visible for months after landing occurred. Both existing and new grass were affected.

**Witnesses**

Additional to "Billy" Eduard A. Meier there exist more than 120 persons who have witnessed evidence regarding the Pleiadians/Plejarens, their beamships, or BEAM.

**Billy Meier's personal contacts with persons from the Pleiades/Plejaren and the Federation**

Name	Origin	Contact period
Sfath (Ischwisch)	Erra (Pleiades/Plejaren)	1942-1953
Asket (Ischrisch)	Timar (DAL universe)	1953-1964; February 3, 2004
Semjase (Ischrisch)	Erra (Pleiades/Plejaren)	January 28, 1975-February 03, 1984; February 3, 2004
Quetzal (Ischwisch)	Erra (Pleiades/Plejaren)	June 27, 1975-today1984
Ptaah (Ischwisch)	Erra (Pleiades/Plejaren)	July 17, 1975-today
Nera	Timar (DAL universe)	July 17, 1975
Plejja	Erra (Pleiades/Plejaren)	June 28, 1976-April 12, 2002
Menara	Deron (Vega System)	July 29, 1976-April 12, 2002; July 2, 2005
Rala	Erra (Pleiades/Plejaren)	September 28, 1976; August 3, 2002
Alena	Sater (Lyra System)	July 06, 1977; April 12, 2002; July 2, 2005
Asina	Deneb (Cygnus System)	Nov 26, 1977 and Sep 26, 2000
Isados	Erra (Pleiades/Plejaren)	December 21, 1977 and August 3, 2002
Elektra	Erra (Pleiades/Plejaren)	January 10, 1982 and August 3, 2002
Sana	Druan (System Nol)	1983 and August 3, 2002
Ektol	Druan (System Nol)	1983 and August 3, 2002
Lumia	Druan (System Nol)	1983; April 12, 2002; July 2, 2005
Ters	Druan (System Nol)	1983 and August 3, 2002
Solar	Deron (Vega System)	March 05, 1983; April 12, 2002; July 2, 2005
Tajda	Nisan (Lyra System)	March 25, 1983-April 12, 2002; July 2, 2005
Zeltan	Druan (System Nol)	May 11, 1985
Florena	Erra (Pleiades/Plejaren)	November 01, 1995-today
Tauron	Erra (Pleiades/Plejaren)	May 29, 1999-today
Zafenatpaneach	Erra (Pleiades/Plejaren)	May 29, 1999-today
Samjang	Nisan (Lyra System)	September 17, 1999-today
Enjana	Erra (Pleiades/Plejaren)	March 25, 2000-today
Sudor	Askal (Pleiades/Plejaren)	June 5, 2001-today

Fetanika	Erra (Pleiades/Plejaren)	June 25, 2001-today
Taneta	Erra (Pleiades/Plejaren)	June 25, 2001-today
Tanissa	Erra (Pleiades/Plejaren)	June 25, 2001-today
Nefratisa	Luseta (Pleiades/Plejaren)	June 25, 2001-today
Gaudon	Erra (Pleiades/Plejaren)	July 2, 2001-today
Queda	Erra (Pleiades/Plejaren)	July 2, 2001-today
Inobea	Erra (Pleiades/Plejaren)	August 26, 2001-today
Melchora (Spiritual Guide)	Erra (Pleiades/Plejaren)	August 3, 2002
Urlana (Spritual Guide)	Erra (Pleiades/Plejaren)	August 3, 2002; April 28, 2005
Jaspan (Spiritual Guide)	Erra (Pleiades/Plejaren)	August 3, 2002
Najdescha	Erra (Pleiades/Plejaren)	April 27, 2005
Ciadena-Aikarina	Erra (Pleiades/Plejaren)	July 2, 2005
Susanka	Erra (Pleiades/Plejaren)	January 7, 2006
Sugam	Barдан (Coma Galaxies)	July 30, 2006

## There is no other UFO case on Earth that is comparable with Billy Meier's.

### *The facts:*

- More than 250 contacts (face to face or telepathic)
- Conversations with alien beings Several thousand pages of verbatim reports of the talks between the contact person and the extraterrestrials Hundreds of photographs of the spacecraft (most of them in daylight)
- The clearest photographs worldwide of alien spacecraft
- More than one kind of spacecraft used
- More than six trips aboard the spacecraft
- 8mm film footage in color taken
- Scores of spaceship landing tracks
- Sounds of the spacecraft recorded
- Metal samples
- More than 4 photographers of the spacecraft
- More than two dozen other witnesses
- More than one alien group involved
- Advanced technologies described
- Photogrammetric and computer analysis of photos
- Tonal and dynamic analysis of recorded sounds
- Metallurgical and chemical analysis of metals
- Truth testing of witnesses

Although often called a hoax Billy Meier's photographs are constantly used and misused worldwide by the Press, television and a great number of organizations and individuals. Characteristically enough no one cared and cares about Billy's copyright. During all those years since 1975 it happened only in 2 or 3 occasions that Billy Meier received a very small sum of royalties.

It's the UFO photographs that made the BILLY MEIER CASE world famous. Meier's photos are beyond comparison. The differences to all the other UFO cases are as follows:

- its superior quality (sharpness)
- its great numbers (hundreds of pictures, most of them daylight shots)
- the fact that most of the photos are taken as series (e.g. the 34 pictures of the famous Hasenböl-Langenberg series)
- the fact that more than one beamship appears on many photos
- the fact that on several occasions Billy Meier simultaneously took photographs and 8 mm movie footage
- additional photographs of landing tracks, wood burnt by laser guns, and extraterrestrial persons
