Services

**Regarding AKA Architects**

Orchard Village has worked with architect **Atul Karkhanis** and his team on several major projects spanning a number of years. We have been thrilled with the results! We can and do highly recommend them. This skilled team consistently develops innovative, creative ideas that can be implemented at affordable costs.

They are calm amid the chaos of construction timelines and deadlines but they make certain that the job gets done well, on time and on budget. They have been accessible and responsive, always ready to resolve the dilemma *de jour*.

We have first-hand experience of their work in classrooms, clinics, commercial kitchens, office buildings and recreation centers. Each of the projects was finished with rave reviews! The spaces are exciting and innovative while construction costs were under control.

We have no hesitation in recommending the AKA team as a resource for a range of projects – from major rehabs to completely new construction.

They are knowledgeable but also resourceful in researching options and alternatives. We found them absolutely indispensable partners for a wide range of projects.

We would be happy to chat with anyone considering Atul Karkhanis Architects to share our very positive experiences with them.
