

## *U. S. Censuses of Stratton*

Every ten years the U.S. Government takes a census of the country, by state, county and town. The first National Census was taken in 1790. Although Vermont was not admitted to the Union until 1791, a census of its population was also taken. Since then, censuses have been taken in years ending in "0." Nearly all of the 1890 census was lost during a fire and therefore, the following pages do not include that census. As of this writing (1997) the last census to be released to the public was taken in 1920.

The following pages are copies of all released U.S. censuses for Stratton, showing heads of families from 1791 - 1840, and all family members from 1850 - 1920 except for 1890.

## *Heads of Families in Stratton in 1790(1)*

The following is a copy of the first U. S. census of Stratton, which was later typed and put into book form. The typed version reflects some errors in the translation; specifically - Sam'l Bowtwell should read Boutell, Warren Burch was most likely William Boutell, Jonathan Greenwood was actually John Greenwood, Denison Grout and Joshua Grout should read Nevinson Grant and Joshua Grant, Wm. Mann should be Bille Mann and Jaras Woodward was Jonas Woodward.

In 1791, there were 24 households with 95 persons in the town.

## *Heads of Families in Stratton in 1800*

The census of 1800 was similar to that of 1791. Again, variations of names exist and have not been corrected. This census was also typed and put into book form. To simplify the categorization of the census in this instance the format of the book was not followed, instead, each head of household is followed by an eleven digit number which describes the makeup of his household. Each digit represents the number of persons within the household that fulfill the respective category.

Categories are as follows:

- 1st position - Free White Males - Under 10 years of age
- 2nd position - Free White Males - Of 10 and under 16
- 3rd position - Free White Males - Of 16 and under 26 including heads of families
- 4th position - Free White Males - Of 26 and under 45 including heads of families
- 5th position - Free White Males - Of 45 and upwards including heads of families
- 6th position - Free White Females - Under 10 years of age
- 7th position - Free White Females - Of 10 and under 16
- 8th position - Free White Females - Of 16 and under 26 including heads of families
- 9th position - Free White Females - Of 26 and under 45 including heads of families
- 10th position - Free White Females - Of 45 and upwards including heads of families
- 11th position - All other free persons except Indians not taxed.

## *Stratton's Census of 1810*

This format is the same as for 1800 with the exception that the last category was dropped so that only a ten digit number is used here. Again, names may have different spelling variations. This census, however, as well as the remaining censuses are copied from the original's that were put on microfilm.

## *1820 Census of Stratton*

Statistical columns changed little from the previous censuses with exception of an age group for males aged "16 to 18." Although the following "16 to 26" column was not changed, it evidently was meant to read "18 to 26." Categories for the 1820 Census are as follows:

- 1st position - Free White Males - Under 10 years of age
- 2nd position - Free White Males - Of 10 and under 16
- 3rd position - Free White Males - Aged 16 to 18
- 4th position - Free White Males - Of 16 and under 26 including heads of families

## *Stratton's Census of 1830*

The 1830 census' statistical data was drastically changed to group members of households into tighter age groups, resulting in 26 columns for free white individuals. The breakdown of this 26 digit number found after each household is as follows:

- 1st position - Free White Males - Under 5 years of age
- 2nd position - Free White Males - Aged 5 and under 10
- 3rd position - Free White Males - Aged 10 and under 15
- 4th position - Free White Males - Aged 15 and under 20
- 5th position - Free White Males - Aged 20 and under 30
- 6th position - Free White Males - Aged 30 and under 40
- 7th position - Free White Males - Aged 40 and under 50
- 8th position - Free White Males - Aged 50 and under 60
- 9th position - Free White Males - Aged 60 and under 70
- 10th position - Free White Males - Aged 70 and under 80
- 11th position - Free White Males - Aged 80 and under 90
- 12th position - Free White Males - Aged 90 and under 100
- 13th position - Free White Males - Aged 100 and above
- 14th position - Free White Females - Under 5 years of age

A total of 56 dwellings and 342 persons existed in the town in 1840 by the above account. The official talley was 344 persons, which is probably more correct since many areas were smudged and hard to read.

## *Stratton's Census of 1850*

The census technique was changed in 1850 to include names and ages of all inhabitants of each town. It was taken in some semblance of order of dwellings within the town and, therefore, this and the remaining censuses have not been alphabetized as have the previous ones, allowing for a better sense of the micro-communities within Stratton. An \* marks the first person listed within a household, the following persons without \*'s all occupy that same household.

(Carlos Knapp appears to have been counted twice.)

Total Population of Stratton in 1850 was 285 living in 61 dwellings.

## *Stratton's Census of 1860*

Just before 1860, Stratton annexed a 2 mile by 2 mile block of Somerset, allowing the entire Pike Hollow area to be within one community. Therefore, some of these persons can be found in Somerset's 1850 Census.

Population of Stratton in 1870 was 294 persons living in 75 dwellings.

## *Stratton's Census of 1880*

This census follows the same format as the three previous censuses with the exception that the relationship of the individual to the head of the household has been included.

Abbreviations are used in the following cases: brother - (b), brother-in-law - (bl), boarder - (bdr), cousin - (c), daughter - (d), daughter-in-law - (dl), father - (f), father-in-law - (fl), granddaughter - (gd), grandfather - (gf), grandmother - (gm), grandson - (gs), mother - (m), mother-in-law - (ml), nephew - (nw), niece - (nc), servant - (ser), sister - (sis), sister-in-law (sisl), son - (s), son-in-law - (sl), step-daughter - (sd), step-mother - (sm), step-son - (ss), wife - (w).

Note: *The category of servant does not necessarily mean domestic servant. For instance, the men listed as servants in the Bowker household (see below) worked in the sawmill on that property.*

There were 296 persons in 66 households in Stratton in 1880.

## *Stratton's Census of 1900*

For 1900, I have elected to show much more of the information taken during this census for each individual. This data includes the month and year of each person's birth and place of birth, their marital status, the number of years married and the number of children (mothers only). Abbreviations for relationships are the same as those for the 1880 census. Abbreviations for marital status are: Single - S, Married - M, Divorced - D, and Widowed -W.

In 1900, there were 270 persons in 67 households in Stratton

## *Stratton's Census of 1910*

Format for the 1910 census eliminated the *birthdate* column found in the 1900 census., with this exception, the format used here is the same as for 1900. Additional abbreviations used: Foster-son - (fs), Half-brother - (hb), Half-sister - (hsis), and Uncle - (unc).

In 1910, Stratton had only 86 persons in 21 households.

## *Stratton's Census of 1920*

Format for the 1920 census is the same as that of the 1910 census, except for elimination of the *Yrs. Married* and *# of Children* columns. Also, since a large number of residents worked in Stratton's lumber camps, I've included an *Occupation* column for an easier comparison of Stratton's permanent population with that of the lumber camps.

In 1920, Stratton had only 90 persons in 19 households.

Of this population, 33 were living and working at the lumber camp at Grout's Mills (although, no longer owned by the Grouts).

## *Stratton's Censuses since 1920*

Although U. S. censuses since 1920, have not been released to the public at the time of this writing, population statistics have been made available. Stratton's population at the beginning of each decade since 1920 was as follows:

Year	Population
1930	55
1940	117
1950	54
1960	24*
1970	104
1980	122
1990	121

\* Actual population of Stratton in 1960 was 42 persons. See the following letter.

Evidently, an inaccurate 1960 Census evidently raised questions about Stratton continuing as a town. The scant population caught the attention of Senator George Aiken. Although, I have not seen his concerns. The Stratton town office responded to them in a letter as follows.

June 16, 1961  
Senator George D. Aiken  
Washington, DC

Sir, I don't wonder you were concerned about the population and number of voters in the Town of Stratton, Vt. So were the inhabitants of Stratton when the Reformer gave the number of Stratton's inhabitants as 23.

Some of the people were away for the winter and the census was taken during the time they were away, all the way from Montpelier, Vt. and Massachusetts to Texas.

I am enclosing for you a list of the residents - men, women and children as well as a list of the voters for 1960.

I hope this will be a help to you, as the Town of Stratton does not wish to be wiped off the face of the earth.

Thank you for inquiring concerning the population and the voting list.

Mrs. Irene French, Stratton Town Clerk  
PO W. Wardsboro, Vt.
