

An Invitation to Join us in Prayer

Each month a member of the Desert View family selects a prayer topic for the team and shares some thoughts to get our work together off and running. Our united prayer supports not only Desert View, but the wider Christian Science nursing community and our global community, too. We invite you to join our prayer team.

This month, House Practitioner Barbara Whitewater CS, shares a message titled:

"Mentored by Christ."

"The Great Physician liveth yet
Thy friend and guide to be;
The Healer by Gennesaret
Shall walk the rounds with thee."

This promise, taken from The Christian Science Hymnal, #96, speaks to us of the ongoing devotion of Christ. It allows us all to be confident that we are not alone as we journey on with every effort to be a blessing to the world. We hear and feel the urging of Soul to love God and man more because the whole world of human consciousness is elevated by it, not just in a moment of prayer and active goodness, but forever. Empowered and enabled by ever present, ever active Mind, we are happily led to higher spiritual understanding and greater receptivity to the best human footsteps to take. Every godlike thought and action blesses all of mankind forever. They bring value and importance to the world that is immeasurable and the proof of our allegiance with Spirit as revealed in all good that unfolds every day.

Let us embrace and celebrate a glorious higher purpose through unselfed love in our daily work and lives as directed by Christian Science. Then it will continue to be the Savior of the world.

Thank you,

The Board and staff of Desert View
