

VIRGO REVELATION 12 SIGN I

Probably aside from the Blood Moon Tetrad phenomenon, the Revelation 12 Sign will be the most significant and hyped celestial event in the Last Days aside from the flyby of Planet X. This study suggests that perhaps these signs are the same and will converge at the end of Rosh HaShanah of September 23, 2017. What is fascinating is that such celestial events keep occurring and/or are pegged to the Moedim or Feast of YHVH as were the Blood Moons. Jesus did say that such signs were to be taken into consideration concerning prophecy. Another uncanny synchronization of this Virgo sign is that it occurs just after the Fall Equinox. On the start of the Sabbath sundown in Jerusalem, if one is to look west, the constellation of Leo will set as the 12 crowns upon the head of Virgo. Then at the point of sunset it might be possible to see the Moon at her 'feet' as the constellation Virgo descends head first into the western horizon over the Temple Mount. I the twilight perhaps the comet 67p might be seen as well. Does this comet 'accent' the event as to serve as a light beacon and marker to take note of?

 After Rosh HaShanah and
 Fall Equinox

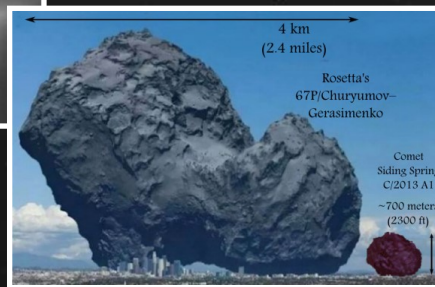

COMET CONJUNCTION

2017 = 50th year since 1967 liberation of Jerusalem, City of the King
 Comet 67p alluding to 1967 and accenting Revelation 12 Virgo Sign next to Moon in 5777?
 June 7, 1967 + 49 years x 360 day/year = 17640 days

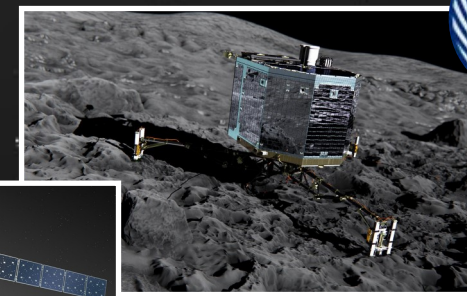

Comet 67p

This comet, 67P was the destination of the European Space Agency's Rosetta Mission. This Rosetta Probe was launched on March 2, 2004. The Rosetta probe rendezvoused with the comet on August 6, 2014. It entered the comet's orbit on September 11, 2014. The Rosetta's Lander, Philae, touched down on its surface on November 12, 2014. Philae became the first spacecraft sent by humans on Earth to land on a comet nucleus. This comet will be in conjunction to the Moon on this Revelation 12 Virgo sign.
