

Come With Me, Babe

Come with me, babe
No telling where we will go
Come with me, babe
No telling where we will go
And when we get there
We probably won't even know

Come with me, babe
We'll take a ride on the sun
Come with me, babe
We'll take a ride on the sun
And at the rainbow's end, we won't even know who won

Funny how it continues to snow
Even though it's early spring
And, the birds are all flying north
But that don't mean a thing

Button your cap and come with me Verona
We'll take a ride on Reading Railroad
We'll do anything that you've always wanted to do
And then we'll laugh when we're through
And then we'll rest when we're through
