

DEZ RIFLES AND BARRELS

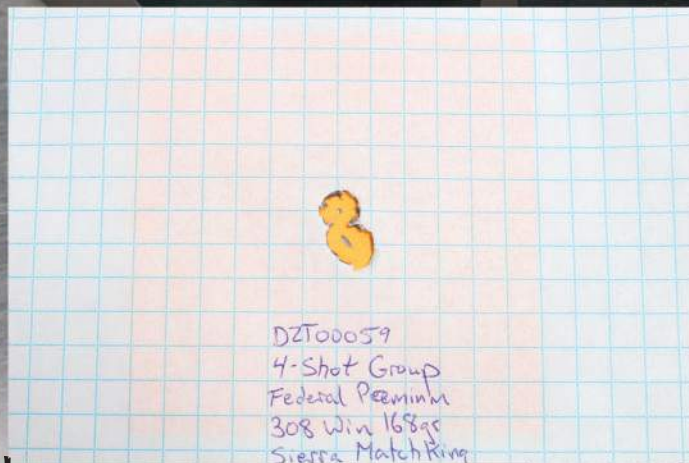

2015/16

Why Should You Want a DEZ Rifle?

When deciding to purchase an AR-15, it's not an easy decision. However, if you're interested in a top of the line rifle from a company who fully stands behind and believes in its products, consider DEZ. When we first decided to build rifles, we wanted to be different. We set out on a mission to build the best rifles possible. That was our mission when we started, and it's still our mission today. DEZ Arms started producing barrels in 2004, and then expanded to complete rifles in 2012. We now offer over a dozen standard rifle models in five different calibers. Want a particular setup that you don't see? Let DEZ build you the custom rifle of your dreams. We professionally build every rifle and upper in house and back it with a lifetime warranty. Producing the best rifles means never sacrificing anything in terms of quality. Here are a few reasons why our complete rifles and uppers stand out from the other guys.

Tested For Accuracy

We're serious about accuracy. Every Match-Grade DEZ Rifle and Upper Receiver is built with a hand-selected DEZ barrel. Our rifles are guaranteed to be sub-MOA with quality ammunition. Before going out the door, every DEZ rifle and upper is tested and certified for accuracy. This is done using our very own state-of-the-art fixture that tests the true accuracy of the build. If it doesn't pass, it doesn't leave - simple as that. The target is sent with the rifle for you to keep!

The Best Components

Building the best rifles means using the best components. Our components are machined to the tightest tolerances using the finest materials, techniques and tooling. When building a rifle, we put in the extra time and effort so you can be confident that your rifle is built far beyond industry standards. Rifles are assembled by a single gunsmith from start to finish. There's no assembly lines here! If you want to build it yourself, all of our components are individually for sale.

Strict Quality Control

Our quality control procedures have been streamlined and perfected to make sure there is absolutely zero manufacturing defect. Every rifle and upper is put through a strict 40+ point quality control inspection before leaving our facility. This inspection is completed by the gunsmith who built the rifle, and then double-checked by a second professional. This quality control inspection sheet is sent along with the rifle for you to keep, and is serialized to your rifle.

DEZ Tactical Arms, Inc.
Quality Control Inspection

Make: _____ Serial # (if applicable): _____

Barrel QC Checklist:

- ☐ Polished Chamber
- ☐ Extension is free from corrosion
- ☐ Feedramps properly cut and smooth
- ☐ Gas port hole alignment
- ☐ Barrel crown is pristine and cut to spec
- ☐ Rifling is clean and deep-cut - free from imperfection
- ☐ Lapped bore
- ☐ Barrel finish is cosmetically sound

Upper Assembly QC Checklist:

- ☐ Upper receiver function checked - trap door and forward assist working
- ☐ Handguard correctly installed/aligned with upper receiver
- ☐ Barrel/bolt headspace checked

A close-up, low-angle shot of a person wearing a tan helmet and goggles, aiming a black rifle through a scope. The background is a blurred outdoor setting. The text is overlaid on a dark horizontal band across the middle of the image.

WHY DEZ TACTICAL?

Once in awhile we'll be asked, "Why should I buy from DEZ Tactical Arms? What makes your rifles and/or company better than the other guys?" Well, these are good questions right! Maybe you are wondering the same thing. With so many options out there when looking to purchase AR-15 rifles, accessories and parts, every person should be asking these types of questions. In response to this, we sat down and came up with a list of 10 solid reasons why we stand out amongst the crowd, and why you should consider DEZ Tactical Arms for your next AR-15. Let's just say this is our answer to, "Why should you buy from us?" No B.S. stories, no make-believe, only the facts.

10 REASONS WHY YOU SHOULD CONSIDER US:

1. NEVER SACRIFICING QUALITY

FOR PROFITS: It's a matter of principle. Our level of quality will always remain consistent, and we will always be looking at ways to improve. Quality will never diminish for a better profit margin. Period.

2. TOP NOTCH, PROFESSIONAL GRADE FIREARMS AND PARTS:

The rifles we produce, and the parts that go into them are of the finest quality. Our rifles that use DEZ Match-Grade barrels will stand up to or surpass other rifles on the market. 1/4 - 1/2 inch groupings (depending on barrel type) at 100 yards with ammunition that has been matched to the barrel should be expected. All of our core parts meet or exceed mil-spec standards and are 100% U.S. Made.

3. BEST QUALITY FOR THE LOWEST PRICE:

This company was created with a two-tier goal - #1 to produce AR-15 rifles that are of the highest possible quality & to provide those rifles at a reasonable price. Our cost that goes into each rifle is high, probably higher than most manufacturers, but we are accomplishing our goals and are having a blast doing it!

4. WE STAND BEHIND OUR PRODUCTS, GUARANTEED:

Every rifle is backed with a lifetime warranty. If you feel something is wrong with your rifle, we will take your concern seriously and work with you to make things right. Whether it's replacing a simple part or more, it's covered - guaranteed. To learn more about our warranty policy, you can find out more on page 63.

5. STRIVING TO BE THE ABSOLUTE BEST IN CUSTOMER SERVICE:

Quality customer service is something that is relatively easy to provide when compared to what is offered by some other firearms companies. We go by a simple, yet effective rule: "Treat others the same way you would want them to treat you." We like to be treated kindly and respectfully. You can expect the same. If this is not your first impression after dealing with us, we have failed you and our mission.

6. CUSTOMIZATION: When most people purchase something customizable, they want to make it their own. We offer the tools and parts to get you the rifle of your dreams. Whether you're wanting a particular fluted barrel, grip, handguard, trigger, etc., we are able to customize your rifle as much as you want. Don't be intimidated to ask questions or make a request. We can help you build it from scratch, or tweak one of our standard models to your needs.

7. SUPPORTING A SMALL, FAMILY RUN COMPANY: We are a small, family run company that is an expansion of DEZ Arms, Inc. Both companies are owned and operated under the same family. Because we are a small company, your order matters to us a lot more than it does to a large, mass-producing company. Take it from us, we don't like large corporations who focus solely on maximizing profits while forgetting their core principles. While we are working to become somewhat of a bigger company than we currently are, we do so with the idea that it will help us increase our manufacturing capabilities and quality standards, rather than increasing profits.

8. MANUFACTURING EXPERIENCE:

We have been in the manufacturing industry for almost 10 years, and many more combined years as firearm operators and enthusiasts. We use state of the art manufacturing equipment in the parts we manufacture. Our State-of-the-art manufacturing equipment, testing, evaluation and quality control goes above and beyond what you might expect from a high-quality manufacturer of firearms.

9. QUALITY CONTROL: Our quality control is something we take seriously. Every upper assembly we send out goes through a rigorous 27 point inspection. Every lower a 14 point inspection. Every rifle a 40+ point inspection. Best of all, you receive the quality control inspection checklist - signed, dated and serial numbered with your order! It is yours to keep.

10. MANY SATISFIED CUSTOMERS:

We have many satisfied customers to date. Our customer testimonials can be found on the product pages, with the majority leaving a 5/5 star review. If you have not purchased from us before, we hope to establish a positive relationship with you soon, or sometime down the road! Thank you.

DEZ Tactical Arms, Inc. was founded in July of 2012 by a young lifelong firearms enthusiast with a vision to create top of the line AR type rifles.

Firearms enthusiast and avid target shooter since an early age, Brian Zawistowski, owner of DEZ Tactical Arms, has many years of experience on the consumer side. Additionally, working within the firearms industry producing precision parts for the AR type rifles has given DEZ Tactical Arms the knowledge and skills to manufacture a high quality product.

Designed for performance under all conditions, DEZ Tactical AR-15 platforms are designed to remain rugged, while providing the highest level of performance in 5.56 NATO/.223, 300 AAC Blackout, 7.62x39, 6.8 SPCII and 7.62x51 NATO / 308. The DEZ Tactical Rifle is adaptable for any situation that you may need.

DEZ AR RIFLES 2015-16

BR4-15

MIL SPEC+

CARBINE

DEZ Tactical Arm's BR4-15 model is the entry-level AR-15 in our lineup of rifles. The BR4-15 is a perfect rifle for those who are interested in the level of quality found in our other products, yet are wanting an affordably priced rifle. A notable aspect of the BR4-15 model is our CMV steel barrel, with state of the art Nitride coating, which provides wear resistance, increased strength and protection from corrosion. Unlike traditional Chrome-lining, Nitride coating will not wear out, and will therefore maintain consistent accuracy noticeably longer. The BR4-15 comes standard with our forged v.2 lower receiver with SAFE - SEMI - AUTO* markings, forged upper receiver and reliable mil-spec trigger. Just like the rest of our rifles, it comes with a lifetime warranty and undergoes a thorough Q.C. inspection. With the DTA BR4-15 rifle, high quality has never been this affordable.

All rifle models are available in any and all cerakote colors. AR-15 rifles in cerakote are an extra \$150.00. This includes; Upper Receiver, Lower Receiver, Handguard. Must be shipped to licensed FFL holder. You will need to provide the FFL information of your local dealer. Custom options are available.

DTA4

CARBINE MATCH GRADE

DEZ Tactical Arm's 'DTA-4' model has the classic military look that you know all too well; however, stands out from the rest with its superior quality and dependable accuracy. Do not underestimate the 16" barrel length; this firearm has the potential to shoot competitively tight groupings. The DTA-4 is the perfect entry-level rifle for new shooters and/or someone looking to purchase their first AR that is ready to perform exceptionally right out of the box. Being built beyond industry standards, veteran AR fans will be pleased with the quality of the DTA-4.

All rifle models are available in any and all cerakote colors.
AR-15 rifles in cerakote are an extra \$150.00. This includes;
Upper Receiver, Lower Receiver, Handguard.
Must be shipped to licensed FFL holder. You will need to
provide the FFL information of your local dealer.
Custom options are available.

DEZ Tactical Arm's 'DTA-4 Optic Ready' rifle offers all the same benefits of the standard DTA-4, however is better optimized for those using optics instead of iron sights. The DTA-4 is the perfect entry-level rifle for new shooters and/or someone looking to purchase their first high quality AR.

DEZ Tactical Arm's 'DTA-4 Enhanced' model takes the classic DTA-4 to a whole new level. We've made several improvements upon the standard DTA-4 to bring you a rifle with limitless possibilities and improved functionality. First, we've taken all the standard mil-spec furniture and outfitted it with Magpul products such as the MOE butt stock, hand guard, and trigger guard. The pistol grip has also been upgraded to our Israeli-style grip providing a contoured fit and superior feel for those long days at the range.

RUL 16C

CARBINE MATCH GRADE

The 'Ultra Light' rifle is one of our new rifle models for 2014-15. As you would expect from the name, the Ultra Light rifle is outfitted to be the least burdensome of our lineup. Weighing in at just over 6 pounds unloaded, the Ultra Light is perfect for a variety of applications, including patrol, all-day-carry situations and shooters who prefer the feel of a lighter rifle. The Ultra Light rifle was designed with a two-part objective: First, to create a lightweight, yet accurate rifle; and second, to maintain reliability and durability by using battle proven mil-spec materials. Notable features of the Ultra Light rifle are the KeyMod handguard, and our Lightweight contoured barrel with nitride coating. Move fast and shoot long with the DEZ Ultra Light rifle.

All rifle models are available in any and all cerakote colors. AR-15 rifles in cerakote are an extra \$150.00. This includes; Upper Receiver, Lower Receiver, Handguard. Must be shipped to licensed FFL holder. You will need to provide the FFL information of your local dealer. Custom options are available.

COMPETITION RIFLE

18-INCH

MATCH GRADE

The DEZ 'Competition' Rifle is another brand new model for 2015. Being built far beyond industry standards, this is our most accurate and flat shooting 5.56 rifle to date. Like its name suggests, the Competition Rifle is ideal for those interested in Three-Gun shooting or shooters wanting superb accuracy while keeping it on the lighter side. Top tier accuracy is guaranteed with our 18" match grade fluted 416 series stainless steel barrel, free floated with our 15" KeyMod handguard. A quality Three-Gun rifle must also be flat-shooting, which we took into serious consideration. A three port compensator, mid-length gas system and FAB Defense shock absorbing stock allows the shooter to take quick and accurate follow up shots. Finally, this rifle is made complete and competition ready with a HiperFire HiperTouch trigger and nickel boron bolt carrier group. Take your competitive nature to a whole new level with the DEZ Competition Rifle.

All rifle models are available in any and all cerakote colors. AR-15 rifles in cerakote are an extra \$150.00. This includes; Upper Receiver, Lower Receiver, Handguard. Must be shipped to licensed FFL holder. You will need to provide the FFL information of your local dealer. Custom options are available.

HUNTER RIFLE CARBINE MATCH GRADE

The 6.8SPC 'Hunter' rifle is made for those wanting the extra knockdown power required for hunting medium to large size game. The 6.8SPC caliber is more suitable for long range shots when compared to other larger calibers for the AR-15 platform. Like most firearms related applications, hunting demands accuracy and this was taken into account when designing this rifle. Notable features of this rifle are the Match-Grade 16" HBar Contour barrel coupled with Mid-Length Free Float rail system. A continuous top picatinny rail ensures capability with whatever optic the shooter intends to use. Another noticeable upgrade is the nickel Teflon coated ALG ACT trigger system which ensures a clean and crisp pull. We also felt it would be fitting to include a Nickel Boron bolt carrier group for an extra smooth action. Be confident on your next hunt with the DEZ 6.8SPC Hunter rifle.

All rifle models are available in any and all cerakote colors. AR-15 rifles in cerakote are an extra \$150.00. This includes; Upper Receiver, Lower Receiver, Handguard. Must be shipped to licensed FFL holder. You will need to provide the FFL information of your local dealer. Custom options are available.

DARK ASSAULT CARBINE MATCH GRADE

DEZ Tactical Arm's Dark Assault is our first standard model in 7.62x39 caliber. This rifle is built to accommodate the most important part of the rifle - the shooter. The Dark Assault has several features that will impress any AR-15 enthusiast. Every rifle comes standard with a nickel boron coated bolt carrier group for improved functionality and ease of cleaning. The shock absorbing buttstock greatly cuts down on the recoil produced by the larger 7.62x39 round, helping the shooter keep on target. Also included is an upgraded trigger, magwell grip and mid-length extended free float quad rail for a clean and custom look. Open up a whole new world of possibilities with the DEZ Tactical Arms 'Dark Assault' in 7.62x39 caliber!

All rifle models are available in any and all cerakote colors. AR-15 rifles in cerakote are an extra \$150.00. This includes; Upper Receiver, Lower Receiver, Handguard. Must be shipped to licensed FFL holder. You will need to provide the FFL information of your local dealer. Custom options are available.

The DZT-USAR10-18 was made for those wanting a precision 7.62x51 caliber semi-automatic rifle outfitted with mil-spec furniture. Being compatible with other manufacturer's parts and accessories, this rifle can easily be upgraded later on if needed. Although this is one of our more economical 7.62x51 caliber rifles,

it is far from being ordinary. This model comes standard with our 18" fluted H-Bar contour barrel, free floated with our mid-length quad rail handguard to guarantee Sub-MOA accuracy. Our matching 7075-T6 aluminum billet upper and lower receiver ensures a precision fit in addition to a clean look and feel. Finally, our heavy anti-tilt buffer

along with an upgraded ALG QMS trigger makes this rifle fire smoothly and consistently with each shot. As with the rest of our match grade rifles, the DZT-USAR10-18 comes certified with a 40+ point spec sheet and accuracy test sample to ensure a perfect rifle every time. Experience the difference with the DEZ Ultra match Semi-Automatic Rifle.

7.62x51 rifles can be cerakoted in any single color free of charge. This includes: Upper Receiver, Lower Receiver and Handguard. Please allow extra order time for cerakote. Must be shipped to licensed FFL holder. You will need to provide the FFL information of your local dealer. Custom options are available.

The DZT-USAR10-18P is the upgraded version of our basic 18" 7.62x51 caliber rifle. Nicknamed the "Patriot", this rifle includes our 18" Fluted H-Bar contour barrel, and billet upper and lower receiver to deliver Sub-MOA accuracy in an extremely mobile platform. Several parts and accessories have been upgraded on the Patriot that truly

make this rifle excellent. First and most importantly is the HiperFire HiperTouch 24E trigger which allows the shooter to easily adjust the weight of pull between 2-4 pounds. Other improvements are the adjustable low profile gas block concealed under our rifle length free floated quad rail handguard. To top it off, we included a Magpul

MOE fixed rifle stock and Israeli style pistol grip for increased control and comfort. As with the rest of our match grade rifles, the DZT-USAR10-18P comes certified with a 40+ point spec sheet and accuracy test sample to ensure a perfect rifle every time. Experience the difference with the DEZ Ultra match Semi-Automatic Rifle.

The DZT-USAR10-16E is the lightest of our 7.62x51 rifles, weighing in at just under 9 lbs with magazine in. Our vision was to create a compact semi-automatic sniper system that did not sacrifice anything in terms of accuracy. This was made possible by our 16" match grade fluted H-Bar barrel, which is Sub-MOA capable with quality match ammunition. Our enhanced rifle buffer system and adjustable low profile gas block complement this model perfectly, reducing felt recoil

and make for an incredibly smooth shooting experience. Other notable features include our enhanced flash hider, mid-Length KeyMod handguard, ambi Ergogrip and HiperFire HiperTouch 24E trigger. As with the rest of our match grade rifles, the DZT-USAR10-16E comes certified with a 40+ point spec sheet and accuracy test sample to ensure a perfect rifle every time. DZT USAR10-20SS 7.62X51 ULTRA MATCH

The DZT-USAR10-20SS model is meant for those serious about long range accurate shooting. Both rifles are capable of taking shots at over 1000 yards with our match grade 20" fluted bull contour barrel (Your choice of 416R Stainless Steel or 4150 CMV Nitride Coated Barrel). Two different variations of this rifle are available, one with a 15"

KeyMod handguard and Magpul MOE fixed rifle stock, and the other with a 12" Keymod Handguard and LuthAR Modular Buttstock Assembly. Both variations feature a seamless no-gap top picatinny rail, making this rifle ready for any optic you wish to use. Finally, an Ergo deluxe pistol grip and HiperFire HiperTouch 24E trigger system

make this a superb semi-automatic sniper system. As with the rest of our match grade rifles, the DZT-USAR10-20 comes certified with a 40+ point spec sheet and accuracy test sample to ensure a perfect rifle every time. Experience the difference with the DEZ Ultra match Semi-Automatic Rifle.

ENFORCER RE-11

SBR

MATCH GRADE

The 'Enforcer' rifle is our first standard rifle model specifically designed for law enforcement applications. The Enforcer was originally developed alongside a Wisconsin Sheriff's Department wanting a compact rifle for duty use. Several upgrades make this one of our toughest rifles available. First is our 11.5" Fluted Nitride Coated Barrel, which increases the lifespan of this rifle significantly when compared to traditional coatings. In addition, a Nitride Coated Bolt Carrier Group and BCM Charging Handle with extended tactical latch makes this rifle ready for whatever is thrown its way. The Enforcer also comes standard with our Carbine Length Free Float Quad Rail, Magpul RVG Vertical Foregrip, Extended Trigger Guard and Single Point Sling Attachment. All of this amounts to a reliable and adaptable rifle ready for any situation. Also available in a pistol configuration.

All rifle models are available in any and all cerakote colors. AR-15 rifles in cerakote are an extra \$150.00. This includes; Upper Receiver, Lower Receiver, Handguard. Must be shipped to licensed FFL holder. You will need to provide the FFL information of your local dealer. Custom options are available.

BLACKOUT

300

SBR

MATCH GRADE

The DEZ Tactical Arms 300 Blackout SBR is a noticeable upgrade from the 5.56 in terms of knockdown power and adaptability. With the exception of the barrel, the 300 Blackout uses all of the same core components as the 5.56 caliber such as magazines and other accessories. One notable feature of our 300 Blackout SBR is that it is suppressor ready, with a standard 5/8"-24 threaded muzzle. This rifle is capable of shooting both subsonic and supersonic ammunition made possible by several parts, one being our adjustable gas block. Two models in this configuration are available, which come standard with our KeyMod Free Floating Rail System and Fluted 1:8 Twist Barrel. Experience the 300 Blackout caliber as it is meant to be with the DEZ-300-9.5P and 12.5P rifles. The 300 AAC Blackout provides a larger variety of applications for the AR-15 rifle platform. The larger bullet increases your knockdown power over that of the 5.56 and 7.62x39. Also available in a pistol configuration.

All rifle models are available in any and all cerakote colors. AR-15 rifles in cerakote are an extra \$150.00. This includes; Upper Receiver, Lower Receiver, Handguard. Must be shipped to licensed FFL holder. You will need to provide the FFL information of your local dealer. Custom options are available.

WEIGHT: 6 Lbs. 2 Oz. (As Pictured).

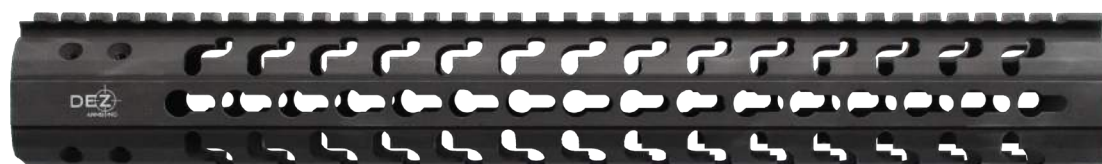

Precision CNC machined from 6061 extruded aluminum.

- Hard coat anodized (matte black) to a surface hardness of 60RC.
- Free-float design for increased rifle performance/accuracy.
- Ultra-lightweight KeyMod design (48% lighter than quad rails).
- Comes with DEZ barrel nut, and all mounting hardware.
- Quick install barrel nut - uses standard AR-15 armorer's wrench.
- Fits flush against flat top upper receivers.
- AR-15 Inside Diameter - 1.63" / .308 Inside Diameter - 1.82.

The DZT-KM10-19 (SS extended length) is a lightweight modular handguard manufactured by DEZ Arms and DEZ Tactical Arms for mil-spec AR-15 style rifles. This handguard system features full Keymod sections at the 3, 6 and 9 o'clock positions, and full mil-spec picatinny rail at the 12 o'clock position. Keymod rail attachments (not included) allow the user to quickly install picatinny rails where needed, eliminating the excess weight of fixed quad rails. This results in a free float rail that is 48% lighter than standard quad rails. Other features include a quick install barrel nut, and a flush fit with mil-spec flat top upper receivers.

All barrels are manufactured from Match-Grade 4150CMV Steel or 416R Stainless Steel Button-rifled, 6-Groove lapped blanks. Barrels are contoured and chambered by precision state-of-the-art CNC machines, and barrel extensions attached before being sent out for coating. Every run of barrels is thoroughly tested for functionality and accuracy in-house. DEZ Arms offers a 100% satisfaction guarantee on all of our barrels. For OEM work and custom orders, please contact us directly. Minimum quantity applies for custom orders.

DEZ Arms Barrels

DEZ Arms began manufacturing in 2004 with a vision to produce top of the line rifle barrels. 10 years later we continue to fulfill that vision each and every day. The first barrels we produced were for the M1919A4 and several other firearms before finding our niche with the AR-15. Since then, we've continued to make vast improvements to our production capabilities, quality standards and barrel options. In 2012, our sister company DEZ Tactical Arms was created to produce complete match grade quality rifles using DEZ barrels. We continue forward with our same philosophy: to bring you the highest quality barrels available at a price that is reasonable. The following is meant to highlight several aspects of our barrels that make them exceptional.

Quality

Producing barrels of the highest quality is our mission. Our barrels use precision button rifled blanks, and are contoured using state-of-the-art machinery and techniques. All of our new production barrels are contoured, chambered, lapped, individually gauged and tested for accuracy in house. Shown in the picture (left) is our fixture for testing and certifying the accuracy of our barrels. Best of all, we stand behind our products and proudly offer a 100% satisfaction guarantee.

Fluting

DEZ Arms is an industry leader when it comes to fluted barrels. We currently offer four unique fluting patterns - Straight, Twist, Diamond and True Flight. Fluting provides a reduction to overall barrel weight, improves heat dissipation, adds barrel rigidity, and gives any build a custom touch. DEZ fluting is precision CNC machined along the entire length of the barrel for maximum benefits. If fluting isn't quite your thing, we offer a complete line of non-fluted barrels in a variety of lengths and contours.

Finish

Phosphate: Mil-Spec coating also known as parkerizing coats the exterior of the barrel, prevents corrosion and gives the barrel a matte greyish-black finish.

Nitro-Carb: Black Nitride, or Ferritic Nitrocarburizing hardens and coats the interior and exterior of the barrel, provides increased wear resistance and lubricity, and gives the barrel a dark black finish.

Bead-Blast: Used on stainless steel barrels to give the barrel a non-reflective finish.

Accuracy

The most important part of any rifle is the barrel. Your barrel has more influence over accuracy than any other single part of the rifle. With that in mind, there's no surprise that we are very serious about how our barrels are performing accuracy-wise. Our barrels are able to achieve sub-MOA accuracy or better with the correct ammunition. If accuracy is your highest priority, we recommend that you choose one of our heavier barrels, such as the H-Bar or Bull contours.

WARRANTY

Built, tested and certified in-house in the USA.

DEZ Tactical Arms, Inc. firearms are warrantied to be free from defects in materials and craftsmanship to the retail purchaser for the lifetime of a rifle. DEZ Tactical Arms, Inc. will remedy any such defect of which DEZ Tactical Arms, Inc. is given written notice. The liability of DEZ Tactical Arms, Inc. under this warranty shall be limited solely to the obligation to repair or replace the firearm or defect at its discretion, and to pay transportation and insurance charges for return of the firearm to owner for a rightful warranty claim. This warranty is transferable, and applies to all authentic DEZ Tactical Arms, Inc. factory built/assembled rifles. Those making a warranty claim must have some proof of purchase that the item was manufactured, sold (whether directly or through a dealer) and certified by DEZ Tactical Arms, Inc. Modification of firearm will void this warranty. The warranty card must be legibly completed and submitted to DEZ Tactical Arms, Inc. (Contact us for warranty card). This warranty does not cover normal wear or any damage resulting from careless handling, neglect, repairs and adjustments, corrosion or improper ammunition. To initiate a Warranty claim, user must submit the warranty request form. Warranty claims need to state (in writing) the model and serial number of the firearm

concerned, a description of the difficulty experienced, and include the date of purchase (DEZ Tactical Arms, Inc. may request a proof of purchase). The firearm concerned should be shipped (transportation charges prepaid) to us ONLY AFTER we have given approval. The owner should insure firearm shipment. DEZ Tactical Arms, Inc. will not be responsible for loss or damage in transit. DEZ Tactical Arms, Inc. will pay shipping and insurance charges for the return of a firearm to its owner if the related claim is a proper claim for warranty work. Under no circumstances shall DEZ Tactical Arms, Inc. be responsible for incidental or consequential damages with respect to economic loss or injury to property, whether as a result of express or implied warranty, negligence or otherwise. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation may not apply to you. DEZ Tactical Arms, Inc. will not be responsible for the results of careless handling, unauthorized adjustments, defective, low-quality, reloaded, or improper ammunition, corrosion, neglect, ordinary wear and tear (Including, but not limited to finish wear/blemishes, bolt piston rings, springs and other parts that are subject to wear over time and from usage) or unreasonable use.

Additional Notes:

- Handguns and long guns are classified as FIREARMS or DANGEROUS WEAPONS. Guns that are surrendered by DEZ Tactical Arms, Inc. with the express understanding that it assumes no responsibility for resale handling under local laws and regulations.
- Under current regulation the following configuration may not be sold in states that prohibit it: telescoping stock, threaded muzzle, high-capacity magazine, bayonet lug, flash suppressor. Check with your local dealer to see if a particular rifle or part is legal in your state of residency, or if special modifications need to be done before shipping to your state. All firearms and lower receivers must be shipped to a Federal Firearms Licensee (FFL).
- Lead Exposure: Discharging firearms in poorly ventilated areas, cleaning firearms, or handling ammunition may result in exposure to lead, a substance known to cause birth defects, reproductive harm, and other serious physical injury. Have adequate ventilation at all times. Wash your hands thoroughly after exposure to lead.
- DEZ Tactical Arms does not recommend modifying firearms. Any repair or modification should only be done by a qualified gunsmith. Always Practice Safe Firearm Procedures.
