

# **AFTER YOUR LICE TREATMENT IS DONE, STAY LICE FREE REPEL, REPEL, REPEL!!!!**

## **+ REPELLENT PRODUCTS - USE WITH TERMINATOR NIT COMB**

- Lice Eliminators Repellent Shampoo
- Lice Eliminators Repellent Conditioner
- Lice Eliminators Repellent Spray
- Scalp Squeegee
- Terminator Nit Comb

## **+ LICE REPELLENT DIRECTIONS**

- Wash hair once a week with Lice Eliminators Repellent Shampoo (or more often if your child has been exposed to lice).
- Apply Lice Eliminators Repellent Conditioner. With the conditioner in the hair, comb through wet hair thoroughly with your Terminator Nit Comb. Rinse with a strong spray of water.
- If you see anything caught in the teeth of the nit-comb, then treat hair with Lice Eliminators Mousse.
- Make your own economical **"leave in" conditioner / detangler**. Since Lice Eliminators Repellent Conditioner is mega-thick and jam-packed with essential oils that lice hate, mix 1 part conditioner and 5 parts water in a spray bottle. Spritz wet hair and **leave it in** for a great deterrent.
- Blow dry and style hair as usual.
- Spritz Lice Eliminators Mint Repellent Spray on hair every day before school, with special attention given to the nape of the neck and behind the ears.
- Keep hair in a ponytail or bun to help eliminate accidental head-to-head contact.
- Spray your child's hair with Lice Eliminators Mint Repellent Spray before a slumber party. Make sure your child uses his or her own sleeping bag and pillow.

## **SAVE A FORTUNE - MAKE YOUR OWN LEAVE-IN CONDITIONER TO REPEL!**

- Mix 1 part Lice Eliminators Repellent Conditioner to 5 parts water.
- Spray daily onto clean, wet hair, then blow dry and style hair as usual, or just allow the hair to air dry.
