

Standard Notation Jig

HIGH-G STRING VERSION

Complete Ukulele C-Tuning E-Book

This tool shows several cool things that you might find useful:

1. The 4 string is tuned to G⁴ on the piano, higher pitched than the 3 string! The 3 string is tuned to C⁴ (piano's middle-C), the 2 string to E⁴, and the 1 string to A⁴.
2. The range of the "High-G" ukulele, from the open 3 string to the 17th fret of the 1 string (if you have that many frets!), is from the piano's C⁴ note to D⁶. Notice how the colors of the Treble Clef notes, the Piano Layout, and the Fretboard Layout all match, and represent the same octave!
3. The big difference between stringed instruments and the piano is that on stringed instruments, notes are repeated all over the fretboard. These notes have the same color below.

4. Ukuleles which have the 4 string tuned an octave up (G⁴ instead of G³, like "Low-G" strung ukes), are tuned in what's called "reentrant tuning". This tuning has a beautiful sound, but soloing can get tricky since the 4 string is higher-pitched than the 3 string. Hopefully the colors make this easier!
5. The last thing you need to know is which notes are sharp (#) or flat (b) in each key, which is easy to see on this Fretboard Toolbox Complete Ukulele C-Tuning Edition.

To learn more about Fretboard Toolboxes, and see all this explained in more detail, check out the Fretboard Toolbox YouTube Channel at www.youtube.com/fretboardtoolbox/
