

B&J Environmental Inc.

Water- Wastewater Operator

B&J Environmental has been in business for over 30 years. The company is in North East Ohio. We are currently seeking a full-time Water-Wastewater Operator class-1 preferred a class-A considered. Part-time operators will be considered also. Operations will be on small package plants in Northeast Ohio and Central Ohio.

The following is just a sample of what an operator can expect to do.

- Run tests to make sure that the processes are working correctly.
- Keep records of water and wastewater quality and other indicators.
- Operate and maintain the pumps and motors that move water and wastewater through filtration systems.
- Monitor the indicators at plants and make necessary adjustments.
- Read meters and gauges to make sure that plant equipment is working properly.
- Take samples and run tests to determine the quality of the water being produced.
- Adjust the amount of chemicals, such as chlorine being added to the water.
- Keep records that document compliance.

This work will be outside and inside. Vehicle and equipment are provided.

We offer medical, dental and vision plans.

Pay will be from \$22 to \$29 an hour to start depending upon qualifications.

Please Contact our Office with any questions. (234)308-6016 or email jgoodridge312@gmail.com with resume.
