

## What is the HIN number?

The Hull Identification Number (HIN) is a 12-character serial number that uniquely identifies your boat.

The HIN allows the manufacturer to clearly identify each boat e.g. for warranty allocation, defect notification and product recall.

## Where do I find the HIN?

The HIN on Glide boats is normally found underneath the footplate. On our latest hulls you should also find it on the outside of the hull on the left at the stern.

## What does the HIN tell you?

The format of the HIN is as follows:

<b>Manufacturers ID Code</b>	<b>Model Code</b>	<b>Serial Number</b>	<b>Year of Manufacture</b>	<b>Month of Manufacture</b>
GB	GS	0001	16	09
