A Brief History of the PBGV Club of America

by Jane Swanson

“Morebess Raymond le Rebelle” was the model for the club logo drawn by Vickie Kwasny. Raymond was from the first litter bred in Denmark by Per Knudsen in 1978. Declared the best show dog Knudsen had ever seen, Raymond won all over Europe, achieved many titles and Best in Shows and sparked demand for the breed in several countries.

Jackie Balog, George and Betty Barth, Sue and Bill Barton, Barbara Cromley, Geraldine Cross, Marc Delanier, Pat Fellman, Barbara Galbraith, Heidi Martin, Louisa Myers, Mary Jo Shield, Anne Snelling, Kitty Steidel, Sally Sweatt and Barbara Wicklund — met during AKC’s Centennial Celebration in Philadelphia with the intention of forming a national breed club for PBGVs.

With a stated mission to protect and promote this rough-coated French hound, the Petit Basset Griffon Vendéen Club of America was formed. Elected officers were Kitty Steidel, president; Barbara Cromley, 1st vice president; George Barth, 2nd vice president; Marc Delanier, secretary; and Bob Booth, treasurer. Bill Barton, Cross, Fellman, Galbraith, Miller and Wicklund were selected as board members. A letter was sent to AKC announcing the club’s intention to seek recognition for the breed. During its first year, membership increased from those initial few to 50, a standard was devised, a constitution and by-laws were adopted and a national registry and studbook were set up. Four months after that initial meeting, 15 PBGVs competed in the club’s first match held in Kentucky on March 16, 1985. Breed interest continued to soar, especially after ABC television reporter Roger Caras bought a PBGV and took it on “Good Morning America.”

By the time the PBGV was accepted to AKC’s Miscellaneous Class on July 1, 1989, club membership had grown to 126 and an annual specialty show was being held. On Aug. 14, 1990, the AKC Board approved the PBGVCA’s bid to register its dogs in the AKC Stud Book beginning Dec. 1, 1990. The breed became the 131st breed to be registered and the 24th member of AKC’s Hound Group, and became eligible to compete for AKC points in February 1991. By then club membership had risen to nearly 200, a number that was almost doubled for the club’s 25th Anniversary Celebration which was held in conjunction with its 2010 national specialty in St. Louis.

AKC PGBV STANDARD

GENERAL APPEARANCE

The Petit Basset Griffon Vendéen is a French scent hound developed first and foremost to hunt small game over the rough and difficult terrain of the Vendéen region. To function efficiently, he must be equipped with certain characteristics. He is bold and vivacious in character; compact, tough and robust in construction. He has an alert outlook, lively bearing and a good voice freely and purposefully used.

The most distinguishing characteristics of this bold hunter are: his rough, unrefined outlines; his proudly carried head displaying definitive long eyebrows, beard, and moustache; his strong, tapered tail carried like a saber, alert and in readiness. Important to breed type is the compact, casual, rather tousled appearance, with no feature exaggerated and his parts in balance.

Any deviation from the ideal described in the standard should be penalized to the extent of the deviation. Structural faults common to all breeds are as undesirable in the PGBV as in any other breed, regardless of whether they are specifically mentioned.

SIZE, PROPORTION, SUBSTANCE

Size – PGBVs measure between 13 and 15 inches at the withers. Height over 15 inches is a disqualification. Height under 13 inches is a disqualification at one year of age or older.

Proportion - When viewed in profile, the body is somewhat longer than tall when measured from point of shoulder to buttocks, as compared to the height from withers to ground.

Substance - Strong bone with substance in proportion to overall dog.

Head – The head is carried proudly and, in size, must be in balance with the overall dog. It is longer than its width in a ratio of approximately two to one. A coarse or overly large head is to be penalized.

Expression - alert, friendly and intelligent.

Eyes - large and dark with good pigmentation, somewhat oval in shape, showing no white. The red of the lower eyelid should not show. The eyes are surmounted by long eyebrows, standing forward, but not obscuring the eyes.

Ears - supple, narrow and fine, covered with longhair, folding inward and ending in an oval shape. The leathers reach almost to the end of the nose. They are set on low, below the line of the eyes. An overly long or high-set ear should be penalized.

Skull - domed, oval in shape when viewed from the front. It is well cut away under the eyes and has a well-developed occipital protuberance. Stop clearly defined.

Muzzle – The length of the muzzle from nose to stop is slightly shorter than the length from the stop to occiput. The underjaw is strong and well-developed.

Nose - black and large, with wide nostrils. A somewhat lighter shading is acceptable in lighter colored dogs. A butterfly nose is a fault. **Lips** - The lips are covered by long hair forming a beard and moustache.

Bite - It is preferable that the teeth meet in a scissors bite, but a level bite is acceptable.

NECK, TOPLINE, BODY

Neck –The neck is long and strong, without throatiness, and flows smoothly into the shoulders.

Topline – The back is visibly level from withers to croup. There is a barely perceptible rise over a strong loin. Viewed in profile, the withers and the croup should be equidistant from the ground.

Body muscular, somewhat longer than tall. Compact, casual in appearance, with no feature exaggerated and his parts in balance. Chest rather deep, with prominent sternum. Ribs moderately rounded, extending well back. Loin short, strong, and muscular. There is but little tuck-up.

Tail - of medium length, set on high, it is strong at the base and tapers regularly. It is well furnished with hair, has but a slight curve and is carried proudly like the blade of a saber; normally pointing at about two o'clock. In a curved downward position, the tip of the tail bone should reach no further than the hock joint.

FOREQUARTERS - Shoulders clean and well laid back. Upper arm approximately equal in length to the shoulder blade. Elbows close to the body.

Legs – The length of leg from elbow to ground should be slightly more than half the height from withers to ground. Viewed from the front, it is desirable that the forelegs be straight, but a slight crook is acceptable. In either case, the leg appears straight, is strong and well boned, but never coarse nor weedy. Improperly constructed front assemblies, including poor shoulder placement, short upper arms, out at elbows, lack of angulation and fiddle fronts, are all serious faults. Pasterns strong and slightly sloping. Any tendency to knuckle over is a serious fault. Dewclaws may, or may not, be removed.

Feet - not too long, between hare and cat foot, with hard, tight pads. The nails are strong and short.

HINDQUARTERS - Strong and muscular with good bend of stifle. A well-defined second thigh. Hips wide, thighs well-muscled. Hocks are short and well angulated, perpendicular from hock to ground. Feet are as in front. Except that they must point straight ahead.

COAT - The coat is rough, long without exaggeration and harsh to the touch, with a thick shorter undercoat. It is never silky or woolly. The eyes are surmounted by long eyebrows, standing forward but not obscuring the eyes. The ears are covered by long hair. The lips are covered by long hair forming a beard and moustache. The tail is well furnished with hair. The overall appearance is casual and tousled.

The rough, unrefined outline and tousled appearance of this rustic hunting hound is essential. Any sculpting, clipping, scissoring or shaping of the coat is contrary to PBGV breed type. The PBGV coat should be clean, neatened as necessary, but always remain casually disarranged. Any deviation from the ideal described here and in the General Appearance Section of the official standard should be penalized to the extent of the deviation.

COLOR - White with any combination of lemon, orange, black, sable, tricolor or grizzle markings, providing easy visibility in the field.

GAIT - The movement should be free at all speeds. Front action is straight and reaching well forward. Going away, the hind legs are parallel and have great drive. Convergence of the front and rear legs towards his center of gravity is proportional to the speed of his movement. Gives the appearance of an active hound, capable of a full day's hunting.

TEMPERAMENT - Confident, happy, extroverted, independent yet willing to please, never timid nor aggressive.

DISQUALIFICATION - Height over 15 inches is a disqualification. Height under 13 inches is a disqualification at one year of age or older.

AKC CODE OF SPORTSMANSHIP

PREFACE: *The sport of purebred dog competitive events dates prior to 1884, the year of AKC's birth. Shared values of those involved in the sport include principles of sportsmanship. They are practiced in all sectors of our sport: conformation, performance and companion. Many believe that these principles of sportsmanship are the prime reason why our sport has thrived for over one hundred years. With the belief that it is useful to periodically articulate the fundamentals of our sport, this code is presented.*

- Sportsmen respect the history, traditions and integrity of the sport of purebred dogs.

~ 2025 PBGVCA Triathlon ~

The triathlon at the 2025 National in Texas has 19 dogs vying to earn a **Beginner Triathlete or Triathlete Award**. Those 19 dogs combine for a total of 255 entries. The Petit Basset Griffon Vendéen Club of America in an effort to encourage its members to work with and train their PBGVs started the Triathlon at the 2016 National. It has turned into a great event for PBGV owners who enjoy training and working with their PBGVs to participate in different events offered at our nationals with others who enjoy companion and performance events.

To qualify for the Beginner Triathlete Award, a PBGV must enter three different disciplines and qualify in at least two of them. For the Triathlete Award a PBGV must enter at least three different disciplines and qualify in at least three. Qualifying scores can only be earned during the Regional or National events. A dog may only compete in an event for which it is eligible under AKC rules and must have registered for a Triathlete award by the closing date of the shows. This competition is open to all PBGVs including those neutered or spayed.

Disciplines, Classes, and Titles that count towards the Triathlon

Agility – All Standard, Jumpers, T2B, and Fast classes. Regular and Preferred height **CGC, CGCA, CGCU, any Trick Dog title, or Qualifying Fast CAT run** – Only one title or Q from this category may count towards the Beginner Triathlete Award

Obedience – Beginner Novice will count for the Beginner Triathlete Award only. Novice, Open, Utility, Graduate Novice, and Veteran obedience. Veterans (age 7 or older) must score 170 or higher for Veteran obedience to count.

Rally – Novice, Intermediate, Advanced, Excellent and Master

Scent Work – Container, Interior, Exterior, Buried, and Handler Discrimination
