

Broomfield After Action

This is an annual community event. We were guests of the Broomfield Veterans Memorial Museum. There was a small glitch transporting the Museum. When Sawaya went out to Golden to Camp George the parking lot where the Museum is stored was filled with vehicles. Bill Robie came to the rescue and aided with Security at Camp George Detention Center was able to get some of the cars moved but still couldn't turn the trailer around. The process of opening up gates at the north end of the lot was like a treasure hunt looking for the keys. Then when the Museum was delivered to Broomfield there was a car parked at the north end of the coned area and the driver had to parallel park the trailer into its parking spot. That resulted in contact with the rear bumper of the car with the tractor hub. Great start to the weekend festivities.

Docents for the Broomfield event were; Carl and Barbara Cavaluzzi, Dale and Candy House and friend Trish Flaherty, Bill Bates, Rick Beaver, Doug Neil, and Terry Olson. Cool and rainy weather kept our visitor count down to about 250. The upside; although the count was lower we were able to spend more time with each visitor. We all had a good time sharing our stories and keeping the memory alive.
