Philosophy

My philosophy is that all students can learn! They may not all learn in the same way but they can learn. I also truly believe that you should never judge a student until you know the baggage (emotional) that they carry. Every student is an individual. It is my job to get to know my students as individuals and provide the best education and support possible for them in a positive Christian environment.

Testimony

I believe that the Lord works through all of us every day of our lives.
