## 9500 Series Premium Ergonomic Seating

### Specifications

Discover greater freedom of movement feels with the all-new 9500 Series from the ergonomic experts at Brewer. This evolution in comfort has been developed to enable you to customize your seating around both preference and ergonomic needs.

#### Brewer Differentiators

- *3rd generation Dynamic Motion Technology*
- *Low-profile, wrap-around backrest*
- *Separate, independent backrest tilt*
- *Flexible waterfall seat front for added comfort and circulation*
- *Exclusive use of HybriGel™ Foam*

#### Product Benefits

- Our 3rd generation Dynamic Motion Technology in the seat & backrest engages your core, helping strengthen back muscles as you work to enhance comfort and stamina
- Low-profile, wrap-around support cradles you in comfort, while allowing you to enjoy a greater range of motion
- Exclusive use of HybriGel™ Foam for unmatched pressure management and cooling comfort
- Designed to provide correct weight distribution, pelvic tilt, and comfort throughout a broad range of routine motion
- Continuous, synchronized movement of the saddle-style seat and lumbar support allows for proper weight distribution, encourages neutral posture and promotes muscular health
- Adjust desired level of seat and back tilt together to accommodate front-to-back reaching without sacrificing lumbar support
- Backrest adjusts independently at the touch of your fingertips, allowing more comfort, improved sight lines and patient access
- Flexible waterfall seat front features less depth than standard seats to meet individual comfort preferences

## 9500 Series Premium Ergonomic Seating
