100 lbs. (Class 125).

SHIPS VIA TRUCK 

## Warranty:

1 year bumper to bumper on all parts  
5 years on all moving parts  
Life time on frame

**Head Section Raised**

**Foot-Section Release**

**Double Safety**

## Functions:

The RehabPro Mobilization Bench has many features to position or support the client for training the trunk or extremities. The head section both raises and lowers for both incline and decline positioning. The bolsters can be used for extremity support or a range of motion guide to a specific exercise. By releasing the small foot cushion MMB promotes active thoracic spine mobilization with counter curves in the directions of side bending and flexion – extension.
