

## Is America's Average Leader Mentally Retarded?

If nothing else, from this day forward, regardless of race or gender, Right-minded American citizens will begin refusing to continuously support America's average Unfit Leader. For after today, America finally comprehends the distinct difference between Rightful and unfit. In Reality, the only reason Unfit Leaders exist is because most voters foolishly believe in heavily-swayed American opinion contending Rightful Leader Qualification comes from traditional religious practice, worldly education, monetary gain and/ or political association.

Unfortunately, opinion has nothing to do with Rightfulness. In fact, long-term opinionating of any kind suppresses essential brain function needed to see what Rightful is. For this reason, I advise Reality seekers to trust no one. Simply substantiate Rightfulness for yourself. Find the closest mirror. [And] ask yourself. Am I swayed by American opinion? Do I support Unfit Leadership? If so, could my Unfit Leader support be exactly why America is plagued with Adversity?

Reality Confused? Don't be. Simply substantiate further. For this you will need statistics from multiple credible sources. Since most credible sources hold public record, we can all substantiate together. Let's begin. With America's average leader secured in place, America's preexisting Mostly Negative Circumstances, like Accelerated Elemental Force Exchange; widespread birth defect; leader corruption; nuclear radiation; innocent harm; war; disease; failing economy; subpar education; American on American violence, like police brutality; homosexual, race and gender inequality; foreign and domestic terrorism; air, food & water toxicity; GMO; hate; unwanted pregnancy; abortion; STD transfer; depression; poverty; infidelity; crime; suicide; exponentially increased human population; divorce; homelessness; improper housing; rape; God Disconnection and Rapid Death not only occur, but all are expected to remain.

Betrayed by mindboggling statistics, America's average voter is revealed to continuously support American Adversity. More mindboggling is the fact most Americans learn Adversity is not Right as small children. [So] if American children recognize Adversity, why is it adults do not?

The answer is over 96% of all American adults suffer from Decreased Brain Potential or DBP, a negatively evolved form of Active Brain Degeneration. DBP is exactly why America's average Unfit Leader allows continuous doses of Mostly Negative Circumstance to psychologically bombard American citizens already suffering.

Cultivated by long-term opinion-based brain malfunction, DBP leaves most American adults physically incapable of properly recognizing Adversity from the beginning; which is exactly why many people believe Adversity has no cure. [And] perhaps incurable Adversity would be acceptable, if it wasn't for the 100% Rapid & Eternal Death Rate attached to it.

There you have it folks. A 100% Rapid & Eternal Death Rate is exactly why, no matter how good you believe America's average leader may be, America's average leader is unfit. [And] Unfit Leader remains nowhere near Rightful.

How do I know all this? Who and what am I? Intelligent questions, my friend. Believe when I say, I would love nothing more than to answer most questions in a few words or less. However, DBP also hinders Unlimited (*Infinite*) Number Comprehension needed to accept who I am from the beginning. For God's *Future* record, *Infinity* is also known as Unlimited *Time*.

As of today, no other human or computer is capable of calculating to *Infinity*. This means, and please don't take offense, attempt at word-based translation is complete timewaste. For now, think of *Infinity* as that Eternal timeshare you've spent years investing in. To your misfortune, reading the fine print never dawns on you. In Reality, your Eternal timeshare was always meant to be frequented by one of God's specific design.

By now, you should be pretty familiar with the mostly physical side of *Infinity*, Reality, also known as Limited Number or Limited *Time*. Due to the nature of limitation, Reality can be translated into word-based language. Take a look at Reality illustration (00) below.

00 Limited Number Relative to Blueprint Earth's 24 Hour Time Cycle

Like *Infinity*, whose physical or Real property is mostly *infinite*, Reality is chemically composed *time*. However unlike *Infinity*, Reality is mostly finite. Finite property physically restricted to Blueprint Earth is controlled by solar based frequency we distinguish as **today**, **tomorrow** and **yesterday**. Today is temporary. [And] tomorrow remains uncharted. This means yesterday is Reality for most people. Note: Illustration (00) demonstrates how 0) yesterday is backward 1) *Infinity* is greater than Reality 2) *Timespace* supports all (physical & Metaphysical) existence.

Reality supporting facts reveal mostly forward programming is needed in order to physically perpetuate tomorrow. For this reason, yesterday must follow tomorrow's path of specific design. With that being said, today is **12101970** when I am born unto Little Debra at 8:30 a.m. in Brooklyn's Long Island College Hospital.

At *the time*, Little Debra is a statistic; an above average human intelligence holding poor black teen girl turned Single Mother. In Reality, Little Debra is a direct descendant of the Great American Slave Trade. Talk about irony. What slave owners used to control slaves, God's *Will* by-way-of Christianity, turns out to be Divine karma. Little Debra is God Connected. [And] according to Beautiful Mother, the moment Little Debra saw my face, Instinct of Motherly Love kicked into overwhelming gear. Because I am of no coincidence, this means Instinct (Open God Connection) is Unlimited Number based frequency capable of crossing *Infinity* into Reality at any *time*.

My birth marks when Little Debra becomes Beautiful Mother, mentor and legal guardian of La Resa Edwards, God's first born superior human offspring. Reality creating Omnipotent Father decides Beautiful Mother is to have no more children. Instead, she is to curtail Significant *Time* lovingly cultivating her "sweet" and "amazingly bright" daughter. Now under Omnipotent Father's Metaphysical protection and Beautiful Mother's physical love, I am free to wield precious *time*, which I use to outcalculate Satan's Minion. [And] when Grandfather approves, Father grants my Dominion.

Yesterday's America, bet all farms that God's first born means Messiah. [And] Messiah means most powerful. If I am most powerful, this means I automatically qualify as Rightful; whether anyone likes it or not. Join countless others in silent witness as I lead God's Army in Holy War.

00) Messiah + Holy War = ARMAGEDDON 01) no one stops The Messiah from ushering in God's *Future* 02) Right minded citizens never even try. I say, submit now puny human! For, Holy War means God's is Real. "I am not a puny human, La Resa the Rightful!" Yes, you are. Allow me to substantiate. In Reality nothing but *time* exists. Therefore until human host wields *time*, human host remains fleeting.

I am curious. If Real-*time* fleets, exactly why am I the only one living in God's *Future*? I mean, we all have active brains. Right? Oh, I get it. You believe Adversity pleases God. Don't you? Well, take it from me 00) voluntary participation in Adversity is mostly negative 01) mostly positive is needed to Qualify for Ascension 02) Ascension Qualification is most *time* consuming. [So] if God's *Future* is exactly what you desire, support La Resa Edwards for Peacemaker President, yesterday!

I know Reality or God's [limited] *Will* overwhelms even the proudest Atheist. [But] it's all good because with your voluntary support comes Ascension Qualification chance. "Wait, are you saying God's *Future* is for sale, La Resa the Rightful?" Good question. The answer is absolutely! [And] it's going to cost you your most valuable possessions. All human hosts physically incapable of calculating the benefits of pleasing God meet Rapid & Eternal Death. I say, hopelessly lost host, timewaste not. For, God's *Will* reveals you can always die rapidly yesterday, if you choose. [So] pick your poison. [And] be quick about it. [But] before you leave, make arrangements for the PMO to collect your unaltered remains for research, crop fertilizer, animal feed and natural product.

For all *time*-needing others, Eternal Sacrifice is most likely to get God's Recognition. Once committed, you may or may not qualify to see tomorrow. Since *Infinity* is a long *time*, I do not suggest risking a glimpse on anything other than Reality. See Reality illustration (01) below.

01 Limited Number Relative to God's Unchanging Number Reason (NR)

God's NR is the best starting place for one struggling to comprehend Reality (Creation). Note: Reality illustration (01) demonstrates how 0) though 2 options always exist, only 1 path leads to God's *Future* 1) unlimited is always greater than limited 2) facts supporting God's *Future* never change. For God's NR, Reality illustration (01) explains exactly why 0) **positive** is always going to be greater than **negative** 1) **Natural** is always greater than **artificial** 2) **need** for things like **air**, **water** and **food** is always going to be greater than **desire** for **automobile**, **nuclear plant** and **GMO**.

Obviously, Reality is key to **God's Future**. This means cultivating anything outside Reality limits precious puny human *time*...
