

Vehicle Recap – Mileage Recorder
(Required each year regardless of method)

*Vehicle expenses can be deducted using the standard mileage allowance or actual expense method. The method used for each vehicle must be consistent for all future years once a deduction for a vehicle has been taken. If change is necessary please schedule a consultation to discuss the change with your preparer.

8.	_____	_____	_____	_____	_____	_____

The above represents vehicle usage that has been honestly documented with **written mileage logs**. I will maintain these logs and be sure they are available for review in case of audit by a government entity. I am aware that if this is not accurate or the records are not available upon audit that I will owe additional taxes, penalties, and interest.
