

## Urine Confirmatory Test Menu

### Barbiturates

|               |
|---------------|
| Butalbital    |
| Phenobarbital |
| Secobarbital  |

### Benzodiazepines

|                             |
|-----------------------------|
| 7-Aminoclonazepam           |
| Alprazolam                  |
| Lorazepam                   |
| Nordiazepam                 |
| Oxazepam                    |
| Temazepam                   |
| $\alpha$ -Hydroxyalprazolam |

### Cannabinoids

|     |
|-----|
| THC |
|-----|

### Illicits

|                                          |
|------------------------------------------|
| 6-monoacetylmorphine (Heroin metabolite) |
| Benzoyllecgonine (Cocaine metabolite)    |
| MDA                                      |
| MDEA                                     |
| MDMA                                     |
| Methamphetamine                          |
| Phencyclidine                            |

### Opiates

|                |
|----------------|
| Codeine        |
| Hydrocodone    |
| Hydromorphone  |
| Meperidine     |
| Morphine       |
| Norhydrocodone |
| Normeperidine  |
| Noroxycodone   |
| Oxycodone      |
| Oxymorphone    |

### Opioid Analgesics

|                                    |
|------------------------------------|
| Buprenorphine                      |
| EDDP                               |
| Fentanyl                           |
| Methadone                          |
| Norbuprenorphine                   |
| Norfentanyl                        |
| Tapentadol                         |
| Tramadol/O-des-methyl-cis tramadol |

### Muscle Relaxants

|              |
|--------------|
| Carisoprodol |
| Meprobamate  |

### Stimulants

|                 |
|-----------------|
| Amphetamine     |
| Methylphenidate |
| Phentermine     |
| Pseudoephedrine |
| Ritalinic Acid  |

### Tricyclic Antidepressants

|               |
|---------------|
| Amitriptyline |
| Despramine    |
| Imipramine    |
| Nortriptyline |

### Other

|                         |
|-------------------------|
| Cotinine                |
| Ethyl Glucuronide (EtG) |
| Gabapentin              |
| Ketamine                |
| Naloxone                |
| Naltraxone              |
| Norketamine             |
| Pregablin               |
| Zolpidem                |

## Urine Screening Test Menu

|                  |
|------------------|
| 6-Acetylmorphine |
| Amphetamine      |
| Barbiturates     |
| Benzodiazepines  |
| Buprenorphine    |

|           |
|-----------|
| Cocaine   |
| Alcohol   |
| Fentanyl  |
| Methadone |
| Opiates   |

|               |
|---------------|
| Oxycodone     |
| Phencyclidine |
| THC           |
| Tramadol      |
| Spice         |

## Adulterant Testing

|                   |
|-------------------|
| Creatinine, urine |
| Oxidants          |
| pH                |
| Specific Gravity  |
