The Consolidated Municipal Court

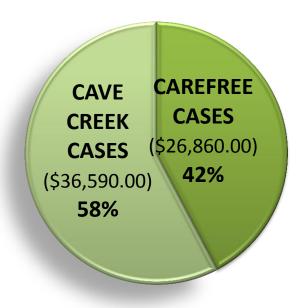

- 1. How much does it costs to operate the consolidated Court?
- 2. How are these cost spread between communities?
- 3. How are costs for operating the consolidated court recovered?

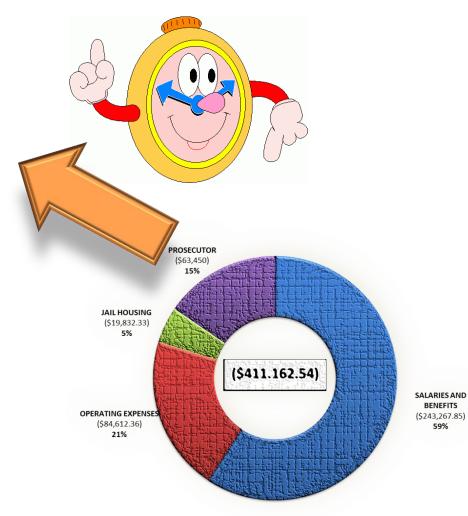

COURT TOTAL EXPENSES FY14/15

COST DISTRIBUTION

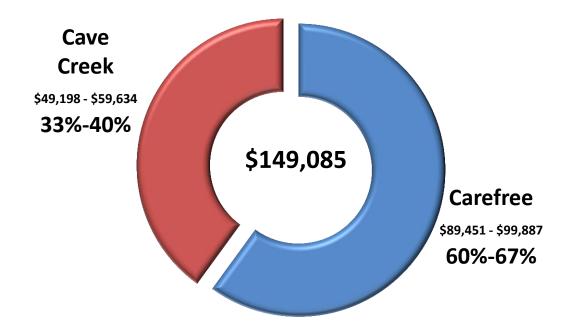

PROSECUTOR CASE LOAD (TIME) DISTRIBUTION

Total Fines Collected FY 14/15

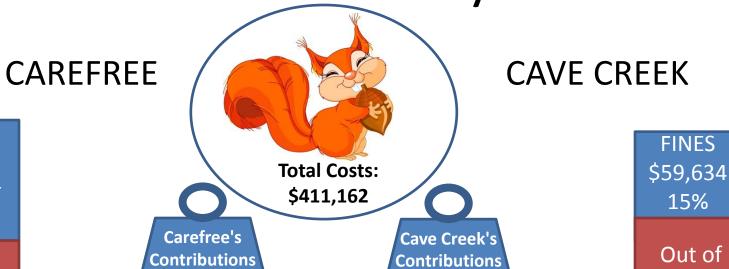

Notes:

- 1. Carefree's historical fines from the three Fiscal Years prior to consolidation ranged from 89K to 100K.
- 2. Cave Creek's historical fines were clouded by the assessment of an arbitrary facility fee which artificially inflated fines.

Cost Recovery

pocket \$115,881 28%

Conclusions

- The IGA cost recovery model is fair and working well.
- From both a financial and an operational perspective, the Consolidated Court should be a point of pride for both Cave Creek and Carefree as a bench mark for minimal, efficient and effective government.
