

Dear Rocky Mountain District Kiwanians –

RMHC-Denver and RMHC-Southern Colorado are grateful for the opportunity to share how your care has helped support the children and families we serve.

*Keeping families together during times of medical crisis is what we do best.* Receiving support from the Rocky Mountain District Kiwanis Foundation helps us do just that. We are honored to partner with you and your mission of “Serving the Children of the World”.

Truly, it has been a privilege to witness as your help has supported the needs of critically ill children and their families – by keeping them together during times of unforeseen medical crisis. We are inspired by you and your efforts. Instead of looking away when you saw a need, you chose to press in.

THANK YOU for your kindness, your caring and your support over the years. Whether it has been you or your key club members providing a meal, volunteering for special events, holding a wish list drive, planting flowers, cleaning the House or providing financial support, you have made a profound difference for the families we serve.

Keep up the good work in the community. We are proud to call you friends!

Sincerely,

Laura Cordes, Executive Director  
RMHC-Denver

Beth Alessio, Executive Director  
RMHC- Southern Colorado
